RADIO: Vancouver music impresario **Sam Feldman** – with partners **David Aisenstat** (a restaurateur) and veteran broadcasters **Bob Mackowycz** and **Roy Hennessy** – has won **CRTC** approval for a new Vancouver FM'er. Tentatively called **Shore FM**, the group plans to have it launched during 2009's first half. Hennessy is expected to be the GM of the Adult Alternative Album (AAA) station... In another switch, **Jim Pattison's 600 AM (CKBD) Vancouver** got the nod for a flip. The new FM'er will be at 100.5 and also be a Triple A format. It's expected to be on the air late this fall... **CBC Radio One**

Vancouver's signal will now be on both AM and FM. The Commission says the station can use both 88.1 and its 690 signal to reach a wider area... Denied, however, was a **CBC** request for an FM transmitter on Gabriola Island, as was its request to operate an FM transmitter in Nanaimo... At Chilliwack, a new Diversified Rock format FM'er owned by **Radio CJVR Ltd.**, based at Melfort, was approved. The company also owns **XM105 (CIXM-FM) Whitecourt**. It's expected that the new Chilliwack station will go to air at 89.5 (380 watts) in about nine months.

Four other applications for the same frequency were denied (**Golden West Broadcasting, Vista Radio, Newcap** and **Frank Torres**)... **Matthew McBride's** application for Port Moody was approved. The 98.7 frequency at 470 watts will see it also serving Coquitlam and Port Coquitlam, an overall combined population of roughly 207,000 with a Triple A format. In its decision, the Commission said McBride's experience in operating radio stations in small B.C. communities such as Pemberton, Tofino and Ucluelet will contribute to its success... **The Goat (CKLM-FM) Lloydminster** and **The Goat (CFNA-FM) Bonnyville**, owned by **Stew Dent**, have been purchased by **Vista Broadcast Group**. The deal is expected to close in 60 days though **CRTC** approval will still be required... **920 AM CJCH Halifax** re-launched Friday as **101.3 The Bounce**. Right now, it's in the midst of three weeks of commercial-free Hit music. PD is **Rob Basile**, ext of **Proud FM Toronto**. **CHUM Radio Halifax** also owns and operates **C100FM**... Also in Halifax, **Newcap** says it has **CRTC** approval to buy **CTV's** 50% in **Metro Radio**

Group's Kool 96.5 (CKUL-FM) Halifax for \$8.5 million. The deal's expected to close within 60 days... **Rock 104 (CKJX) Olds** launched Friday, a sister to Country-formatted **CKLJ-FM** – both owned by **CAB-K Broadcasting**. Owner/GM is **Brian Hepp**... **Hot FM (CFQK) Thunder Bay** has become **The Thunder**, moving to a New Country format... The **Canadian Broadcast Standards Council** says stations must clearly identify sponsored programming. That followed a complaint about **CHWO Toronto's Sunday Showcase with Murray Segal** that didn't let listeners know that a talk show had been sponsored by the company whose owner was a guest on the program.... In another decision, the **CBSC** commended **Rock 102 (CJDJ-FM) Saskatoon** for how it dealt with a complaint over the f-word in the **Matthew Good Band** song, *Load Me Up*. The **Rawlco** station's GM explained to the complainant that the unedited version of the song had accidentally been loaded into its computer system. Further, he said, Rock 102 would be instituting safeguards to ensure that all songs would be properly previewed from then on. He also agreed to immediately broadcast an on-air apology six times. The complainant still wasn't satisfied and requested that CBSC rule on his complaint. The daytime broadcast of the f-word was, said the Prairie CBSC panel, a breach of the **CAB Code of Ethics**. The entire CHWO Toronto and CJDJ Saskatoon decisions may be found by clicking www.cbsc.ca... In Winnipeg this week, among other applications, are four applications for radio licences in Winnipeg. **Newcap**, **YO Radio Management**, **Evanov Communications** and **Native Communication** – two wanting 106.3 and two wanting 104.7. Newcap wants 106.3 at 100,000 watts for an Alternative Rock format while YO Radio Management (**David Asper**) wants the frequency at 100,000 watts for a Pop Alternative format. Evanov Communications has applied for 104.7 at 6,500 watts for a Contemporary Easy Listening format while Native Communication (NCI) wants the frequency at 3,000 watts for an English and Aboriginal-languages native Type B FM'er... Also at that hearing, an application by **My Broadcasting Corporation** for an FM licence in Exeter. My wants 1,330 watts at 90.5 for a blended AC/MOR format. **Golden West Broadcasting** has applied for an FM licence at Humboldt that would use 107.5 at 100,000 watts programming Country.

TV/FILM: **CTV's** secondary **A-Channel** stations – in Ottawa/Pembroke, Barrie, London, Wingham, Windsor and Victoria – will be re-branded to **"A"**. CTV says the revamping will better complement the main network and provide a testing ground for new shows... A move by U.S. cable companies to ditch set-top boxes — and an extra remote control — could soon expand into Canada. **Sony Electronics** and six of the biggest U.S. cablecos have agreed to replace set-top boxes with a new system that would be built into TV sets. And **Rogers Communications** says it might follow suit. Boxes would be replaced by a card inserted into a cable-ready TV set that would receive the signal and allow for two-way services, including pay-per-view... Meantime, a **Canadian Media Guild** study is considering Kamloops as a test case to overcome the eventual loss of free, over-the-air, analog TV across Canada. A broadcast engineer is now studying the viability of multiplexing in Kamloops. Multiplexing is the ability of digital TV channels to carry up to six sub-channels on the same frequency so a free or low-cost alternative might be established as an alternative... **Rogers Communications** Vice-Chairman **Phil Lind** says the **CRTC** has demonstrated *"an appetite for micro-management that may have dangerous implications for how television news stories are chosen and focused."* His beef stems from hearings last month to overhaul cable and broadcasting rules. In a Toronto speech late last week, Lind said a topic at the hearings led to *"disturbing signals emanating from Ottawa that the regulators are toying with the idea of taking a far more hands-on approach to local news programming."* Linking fee payments to TV networks to the creation of local programming, he said, could alter news gathering and presentation, and would be difficult to police. He questioned why the CRTC is even considering implementing such as plan in what is *"supposed to be the age of deregulation"* in which industry can respond to market forces and consumer demand... **CRTC** Chair **Konrad von Finckenstein**, at the hearings this week on the sale of Quebec's private **TQS television network**, said that he isn't buying a proposal by TQS buyer **Remstar Broadcasting** to drastically curtail its news coverage. *"What you are asking for is an exception,"* he said. *"We have problems with that."*

Remstar's plan to make TQS profitable calls for 370 layoffs, thus reducing its news staff to a skeleton operation. Remstar said its tight financial straits also makes it hard to respect the Canadian content, local production and subtitle requirements in its licence. But Commissioner **Michel Morin**, herself a former **Radio-Canada** TV reporter, noted that TQS has never respected licence conditions. But TQS replied that that was a software glitch, not reality. Morin pointed out they used the same excuse in 2002 and 2004. According to Commission figures, Cancon dropped to 32% from 54% during the day and to 42% from 49% at night between 2001-2007... **Canwest** says its specialty channel, **Cool TV**, has been discontinued. Service at the jazz channel will stop over the next month or so.

In 1968, with co-Host **Joan Watson**, Finstad and she were the original team on CBC's **Marketplace**. His most challenging moment, he said, happened in October, 1970, when he went on national TV to recount the murder of Quebec Labour Minister **Pierre LaPorte** during the *October Crisis* when a series of events were triggered by two terrorist kidnappings – LaPorte and British Trade Commissioner **James Cross** -- by members of the FLQ (Front de liberation du Québec)... **Bob MacGregor**, 74, of cancer at Niagara-on-the-Lake. But the Commission can act in certain areas, e.g. amending its policy to allow tangible benefits stemming from ownership transactions to be directed to the CTF, and the **Broadcasting Distribution Regulations** to make mandatory the monthly contributions of companies that distribute broadcasting services. lawsuits don't get in the way, be used beginning this fall on the **TSN** and **RDS** specialty channels. The main network, **CTV**, says it will be used during Vancouver 2010 Olympic hockey coverage. But litigation may stall – or stop entirely – **CTV's** use of the tune. There will apparently be two lawsuits, one almost certainly against the composer in which **CBC** will argue that it is entitled to a significant amount of her proceeds from **CTV**. **CBC** will likely say that it was their promotion of the piece that created the song's value... The **Canadian Association of Broadcasters** has filed a submission asking that the **CRTC** limit to two years the renewals for **Shaw Communications'** 43 cable systems. **CAB**, in making the request, cites occurrences of non-compliance, including advertising on community channels, simultaneous substitution, distribution of U.S. 4+1 signals and advance notice of channel realignments. **CAB** wants the Commission to monitor **Shaw's** performance, especially the bringing of its conditions of licence into line with the **BDU/specialty** and pay framework... Stringent security in Beijing is threatening TV coverage of the **Olympic Games**. There are differences over a wide range of issues – from

limits on live coverage in Tiananmen Square to allegations that freight shipments of broadcast equipment are being held up in Chinese ports. It appears that the procedures used by broadcasters at other Olympics are conflicting with China's authoritarian government... Specialty channel **Razer** will be rebranded as **MTV2** on August 1. The interactive lifestyle youth channel targets 12-24s, skewing toward more male programming. **MTV** is slightly more female-oriented... **Citytv Toronto's** third annual Herbie Day raised \$181,374. The **Herbie Fund** provides assistance to children receiving life-saving or life-altering surgery at Toronto's **Sick Children's Hospital** that is not available in their home countries.

RADIO: AM 940 (CINW) Montreal, which announced the dropping of News/Talk in favour of a Greatest Hits format last week, saw 18 employees lose their jobs. Among them are **Dennis Trudeau**, **Jim Duff**, **Joe Cannon** and **Aphrodite Salas**. The station will continue to broadcast in English... While a new PD is being sought at **The Edge (CFNY) Toronto**, **Alan Cross** will remain with **Corus Radio** in a newly-created capacity involving a national and international radio and Internet Corus initiative. **Cross** assumes the new duties July 1... **Canadian Broadcast Sales** says Q3 radio sales climbed 8.7%, the eighth consecutive quarter of growth. **CBS** says that's the longest stretch since Q1 of 2002. **CBS** President **Patrick Grierson** is predicting Q4 at a 9% annual growth... **Astral Media Radio's** Montreal head office says it's launching a business website aimed at helping advertisers make more informed decisions for campaigns on its 82 radio stations. The website, says **Astral**, shows reports and analyses that provide economic and consumer trends plus station stats. The initiative has two phases, first with **Astral's** French-language stations, then followed by more in-depth info about the English stations.

GENERAL: With a growing support base of Quebec politicians, questions are being raised with more frequency about the province taking control of licencing radio and TV stations. The **Quebec Liberal Party**, at its general council meeting in September, will look at a proposal that would enact veto power over **CRTC** decisions related to the approval or renewal of radio licences in the province. To be clear, the proposal calls for the Quebec government to appoint one-third of **CRTC** Commissioners "who grant or renew radio licences for stations broadcasting on the Quebec territory." On the opposition benches, the **Parti Quebecois** wants Ottawa to hand it all over... **Fairchild Radio**, the cross-Canada broadcasts of radio and TV for the Chinese community, helped raise \$2.8-million for those devastated by the Sichuan earthquake. **AM1470 Vancouver**, **FM94.7 Calgary** and **AM1430 Toronto** teamed with **Fairchild Television** and **Talentvision** for that monetary donation to the **Canadian Red Cross**... **Rogers OMNI Television**, too – involved in a fundraiser with sister **Rogers** broadcast outlets for Asian disaster relief – raised \$58257, money needed for China earthquake and Myanmar cyclone victims.

SIGN-OFFS: **John Michael**, 72, at his home in Chippewa, ON, of heart failure. The talk show Host was well-known from his days at **CJRN Niagara Falls** and **CKTB St. Catharines**... **Ralph Glassford** (known on-air as **John David Cameron**), 66, of cancer at Sault Ste. Marie. Cameron began his career at **CKDO Oshawa**, then moving to Sault Ste. Marie and spending the next 30 plus years on-air at **CKCY-FM/AM, Q104** and **100.5 EZ Rock**. He was also known to readers of **SooToday.com's** forum pages as **Grumpy Old Man**... **Jim McKay**, 86, the veteran Host of **ABC's Wide World of Sports** for decades. It was McKay who was into the role of reporting on tragedy at the 1972 Munich Olympics.

LOOKING: **CKPG Prince George** is looking for a News Director. See the ad on Page 1... Other jobs we've heard about include: **The Edge (CFNY) Toronto** – Program Director; **CKQK-FM Charlottetown** – Program Director; **Astral Media Radio Toronto** – Group Manager, Astral Media Mix; **Astral Media Radio St. Catharines** – Creative Director; **Astral Media Radio Terrace** – Engineer/Technician; **CHUM Radio Ottawa** – Senior News Reporter; **CJOB/CJKR/CJGV Winnipeg** – Interactive Account Manager; **Canwest Broadcasting Toronto** – Finance Manager, Distribution and Marketing, a Senior Financial Analyst, Distribution and Marketing, and a Senior Web Application Developer; **CTV Winnipeg** – News/Production Editor; **CTV Toronto** – Features Producer, TSN Programming and a Producer, SexTV Channel; **CBC Montreal** – Officer, Partnerships and Strategic Planning; **CBC Ottawa** – Manager, Technical Support; **CBC Toronto** – Manager, Business Development; **Corus Television Toronto** – Marketing Manager SCREAM, Movie Central, Affiliate Marketing; **CHAT-TV Medicine Hat** - News Anchor/Producer; **Citytv Calgary** – Technical Director; and, **Ross Video Ottawa** – Technical Support Specialist.
