AMATEUR RADIO EXCHANGE

SOMETHING VERY SPECIAL FOR CHRISTMAS FROM BRENDA AND BERNIE

That way you can have the rig you want as your Christmas present... the peace will be kept at home... and you can even have a Brenda's cup of coffee any time you want!

Christmas, we are always told, is the season of good-will to all men. But now Brenda has decreed that it should be the season of good-will to the ladies as well.

So, if you have the nerve to spend £500 or more on a rig at either Acton or St Helens in the month of December, Bernie has agreed that the woman in your life should be presented with a beautiful 12-piece bone china coffee service from us as some sort of compensation.

NEW • NEW • NEW FT-980

Yaesu's latest HF transceiver, which fits neatly into their range between the FT-102 and the FT-ONE... and is an obvious competitor for the mythical (or merely elusive?) Trio TS-930.

Features like general coverage receive, notch filter, pass-band tuning and IF shift will make this rig a top-of-the-market bargain at a price yet to be announced, but which we anticipate will be not a million miles from **£925**.

FT-102

A worthy successor in the Yaesu range to the evergreen FT-101 series, with so many extra features.

- Notch filter • Three 6146B final tubes • IF shift control • Band width control from 2.7kHz to 500Hz • APF control • RF processing
- Tunable audio network for speech tailoring • SSB/CW/AM/FM

OUR PRICE OF £725 INCLUDES AM/FM BOARD

IC-R70

Presenting the best in today's receiver technology from ICOM, featuring:

- Two VFOs • Frequency range 100kc - 30MHz
- Three IFs 70MHz/9MHz/455kHz • HF pre-amp
- Sensitivity 0.5 µV AM - 0.32 µV S/N 12dB

All this... and much more... for £469

IC-740

The latest addition to the ICOM transceiver range, this gives all mode coverage - AM/CW/SSB/FM - right across the amateur bands from 1.8 to 30MHz.

Incorporating such features as IF shift, pass-band tuning and notch-filter as standard, this is one rig that has to be seen and tried by anyone in the market for a really top-quality base station.

OUR PRICE £649

It's always been our policy to offer our customers the widest choice of amateur radio receivers and transmitters to be found under one roof anywhere in the UK **plus** the facility to try them out, one against the other, to find the one that's right for you.

Well, now we're doing the same with communication terminals for decoding RTTY, CW, ASCII and AMTOR. Where else will you find complete ranges of decoders by AEA, MICRODOT, MICROWAVE MODULES, TASCOS - TELEREADER and TONO at prices starting from £175 for receive-only up to £700 for top-of-the-range receive-and-transmit equipment like the CWR-685 as illustrated?

One item you certainly won't find in many other places is the unique British-made ICS AMTOR decoder for which we have just been appointed the sole London retailers!

373 UXBRIDGE ROAD, ACTON, LONDON W3 9RH

Tel: 01-992 5765/6/7 Just 500 yards east of Ealing Common station on the District and Piccadilly Lines, and 207 bus stops outside.
