Get it right from the start.

A GOOD START is essential to short wave listening and expert advice is important in achieving this. Firstly, a receiver is only as good as the antenna it sees. The old adage regarding wire antennas "as long and as high as you can" is still good, but at best is only good for PEAK PERFORMANCE on one or two frequencies, or at worst none.

For PEAK PERFORMANCE on all frequencies you need good matching between your Receiver and Antenna. If you plan to listen on the high frequency bands up to 30MHz then you know you can't have an antenna for every frequency! BUT we can offer you MUCH IMPROVED PERFORMANCE from your receiver by using an antenna tuning unit that will electrically change the length of your antenna to match the frequency you select. In other words - A MATCH FOR ALL FREQUENCIES.

You'll see many antennas being advertised under gimmicky names, but when it comes down to it they're only random wires or odd configurations, but at the end of the day, if you're expecting the performance the manufacturers specified, then you'll have to buy an antenna tuning unit. DON'T! We'll give you one ABSOLUTELY FREE when you buy your receiver from Amcomm, as well as complete advice on an antenna to suit your available space.

1 YAESU FRG 7700 + FRT 7700	£329.00 inc. VAT
1 YAESU FRG 7700M + FRT 7700	£409.00 inc. VAT
1 ICOM ICR7 + FRT 7700	£469.00 inc. VAT
1 TRIO R1000 + FRT 7700	£297.00 inc. VAT
1 TRIO R600 + FRT 7700	£249.00 inc. VAT

Get it right. HAVE PEAK PERFORMANCE FROM THE START. BUT DON'T FORGET, ADD £6.00 IF YOU REQUIRE NEXT DAY SECURICOR DELIVERY.

YAESU - JAYBEAM - HYGAIN - BANTEX -
AMTECH - CUSHCRAFT - ICOM
and 50 other major lines - all ex stock.
