TS 930. Superb high performance, all solid state HF transceiver, capable of operating in the SSB, CW, FSK and AM modes, on all amateur bands (160 to 10 metres). Incorporating a general coverage receiver. Built-in ATV is an optional extra.

TS 430. The latest 'state of the art' HF transceiver from Trio-Kenwood. This new set has full amateur band coverage, including the three new bands and also incorporates a general coverage receiver. SSB, CW, AM and also FM modes are available (FM with optional board). Fitted with twin VFOs and all the usual filters you have come to expect from Trio-Kenwood transceivers.

FT 102. Represents significant strides in the advancement of amateur transmitter signal quality, previously restricted to top of the line transmitters. For the amateur who wants a truly professional quality signal the answer is the Yaesu FT 102.

FT 707. A full-feature transceiver, ideally suited as a home station or as a travelling companion. The FT 707 is the radio of the 80s. Now with the new bands giving coverage of 80 to 10 metres in SSB, CW and modes.

FT 77. This new full feature mobile transceiver from Yaesu has 100 watts of RF power on all amateur bands from 3.5 to 30 MHz (including new bands) and has optional FM. Its unbelievable small size and lightness coupled with its low price will make this set a firm favourite as a first-time rig or a handy second set to use anywhere.
