## BNOS 'A' SERIES POWER SUPPLIES

Primarily designed and ideally suited for both amateur and professional mobile transceivers. Now extending our range to meet a growing requirement the model 12/6A and 12/40A have been introduced.

The 'A' series of fixed voltage (13.8V) power supplies are designed to operate at full rated current continuously with voltage regulation better than 0.1%. Short circuit protection, foldback current limit and over voltage crowbar protection circuits are incorporated, along with full RF protection, to minimise equipment damage due to user error or equipment failure. All of the 'A' series of power supplies incorporate output current meters, well rated output spade terminals (with integral 4mm socket on 6A and 12A models).
