5H3JR "Strong Signal"
G4HRN/W5 "Very outstanding signal"
W4US/HR1. "Wow Man! are you really in England?"
VK81F "Thought you were local"

The above are a few of the reports and comments received over the course of a few hours operating. They (or the antenna!) speak for themselves. When you upgrade your antenna system to a quad, you'll only have one regret... and that's not having done it sooner! Send SAE for specification.

Prices (Inc. Carr. and VAT)
DX-31 Dipole, 2KW, 10-15-20m, Rotary £75.89
DX-32 2 element, 2KW, 10-15-20m £112.70
DX-33 3-element, 2KW, 10-15-20m £164.45

DX-24Q
2 Elements
2,10,15,20m
£199.99
DX-34 4-element, 2KW, 10-15-20m £234.59
DX-6V Vertical 10-80m £82.79
DX-103 3-element, 10m £82.22
DX-51, Dipole Rotary for 14, 18, 21, 24 and 28 MHz £90.85

DX-26Q
2 Elements
2,10,12,15,16 & 20m £224.25
DX-105 5-element, 10m £106.95
TD1/10/80 Trapped dipole, 10, 40, 80m £52.90
TD1/15/80 Trapped dipole, 15, 20, 40, 80m £52.90

ROTATORS... we only stock the best... buy RELIABILITY... buy EMOTO

EMOTO

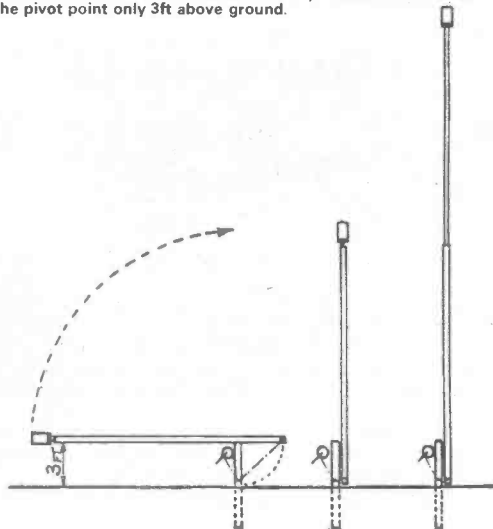

WE ARE THE SOLE U.K. DISTRIBUTORS!
Models 103SAX and 502SAX (illustrated) now have 360° circular dial presentation.
EMOTO 103SAX For light HF and large VHF arrays £123.05
EMOTO 502SAX For heavier HF beams plus VHF/UHF £171.35
EMOTO 1102MXX The really big one for large HF monobanders £240.35
EMOTO 1103MXX As 1102MXX but greater turning power £246.10
EMOTO 1102MSAX Circular dial £303.60
EMOTO 1103MSAX Circular dial £309.35
MB-300 Rotary bearing £17.25
450 Flexible mount for '103' £6.32
451 Flexible mount for 1102/3 £12.65

VHF ROTATOR
only £39.95
ask for Cat. No. 1145

HF ROTATOR
only £86.25
ask for Cat. No. 1144

The 30ft ULTIMAST

A new mast for the budget-conscious amateur. Constructed in two sections, the lower being a square section tube and the upper a 3" dia. round tube, the ULTIMAST telescopes up to 30ft and down to 15ft. The tilt-over allows easy antenna access with the pivot point only 3ft above ground.

ANOTHER **Western** WINNER!

We designed our ULTI-MAST for
PEOPLE WITH 2 HANDS!

Seems our competitors got it wrong! They need 3 hands according to the review in "Practical Wireless" of March, 1983.

REMEMBER... the ULTI-MAST was so called because it is the
ULTI-MATE IN DESIGN

Our structural engineering department came up with the maximum of strength for the minimum of cost. It's impossible to get MORE strength for LESS cost... so beware of cheap copies... they may not have the correct material.

Slim, unobtrusive One-winch operation
For VHF and HF antennas Telescopic and Tilt-over
Simple ground fixing Self-supporting

THIS IS THE TELESCOPIC YOU CAN AFFORD!

Ultimast, UM-1 £251.85
Reducer head, UHD-1 (reduces to 2" dia stub) £16.10
Rotor head, UHD-2 (takes up to Emoto 103SAX) £35.65
PRICES INCLUDE DELIVERY AND VAT AT 15%
