Take a look at the world's most advanced range of 2 metre Linear Amplifiers

Over 40 years of design experience has gone into what is fast becoming acclaimed as the biggest break-through in linear technology.

Performance and reliability have been designed in, which gives us the confidence to offer a free 5-year warranty. Why not take a closer look at our products and see where value for money really counts.

The LPM144 Range

This sophisticated, but simple to use, range of amplifiers have performance characteristics and extra features previously not available in the UK. The pre-amplifier uses the highly regarded BF981 MOSFET, and an LED bargraph power meter is provided, to highlight only two of the amazing number of features.

The L144 Range

To complement the LPM range, we have introduced the L series linear-only versions for the amateur who may already be equipped with a good pre-amplifier and power meter. The excellent linear performance is maintained and both RF Vox and hard-wired changeover are standard.

- Linear all mode operation
- Continuous rated RF output power (RMS)
- RF & HARD switched changeover with selectable delay
- Trouble-free RF switching at low drive levels
- Straight-through mode when switched off
- Unique over-drive protection circuit
- Mobile mount on all 100 Watt models
