#### A.R.M. MULTI P6 ANTENNA

Probably the most versatile  
Antenna ever designed

PRICE £39.25

+ £2.50 carriage

This is one of the most exciting new products to be launched by RWC and is the result of many months of development by Antenna Research Manufacture based in Devon. The antenna has been designed to meet the growing popularity in multimode portable and mobile operation and is capable of being used on both vhf and uhf in both horizontal and vertical polarization modes, both portable and mobile. The antenna has the facility of being used as both omni-directional modes as well as having capability of DF function. No ground-plane or radials are required and the antenna can therefore be used in a variety of applications on frequencies between 140-450 mhz. Collinear elements £4.75.
