

25 YEARS IN AMATEUR RADIO

R-5000

£875

Don't forget that Kenwood expertise is not limited to transceivers. The R-5000 has been voted "Best HF receiver of the year" by the demanding reviewers at World Radio and TV Handbook, and this is not surprising when you actually use one. All mode top performance from 100kHz to 30MHz (and 108-174MHz with the optional VHF converter), ultra flexible IF filtering, built-in power supply, stable and accurate readouts in all modes, and of course Kenwood quality.

TS-790E

£1,495

Destined to be the new standard by which all VHF/UHF transceivers are judged, the TS-790E gives the dedicated operator everything he ever wanted in a multi mode, multi band home station. Covering 2 metres, 70 centimetres, and (optionally) 23 centimetres, on all modes, whether DX chasing, contest operating or chatting cross town, the TS-790E can handle it all and give you complete satisfaction. See a brochure soon.

TS-140S

£862

The TS-140S was in effect designed by our customers, who demanded Kenwood performance and facilities at modest cost. The TS-140S has all mode, all band HF coverage, and of course a high performance general coverage receiver. 100W output and a first class receiver combine to make the TS-140S a really satisfying rig to own. It's also available in the form of the TS-680S which has all the bands and modes of operation of the TS-140S but with the 6 metre band as well.

For all that's good in Amateur Radio — including advice!

Although most folk think of us as the Emporium in Matlock and enjoy coming to see us, we do appreciate that travel can be difficult these days, particularly for those who have to drive (sorry, park) on the M25. That is why we have branches around the country. Each branch carries a full range of everything that we stock and sell, and is run by an experienced radio amateur who is ready with the same good advice and assistance which we try to offer at Matlock. Why not call in and have a word with Sim, GM3SAN in Glasgow, Hank, G3ASM in Darlington, Tony, G4NBS in Cambridge, Ceri, GW0CJB in Barry (our new branch transferred from Cardiff), Dave, G3IKG in Eastcote, London, or Colin, G3XAS in Bournemouth.

You could of course pop in and talk to our front line manager Richard, G4NAD here at Matlock, ably assisted by Bill, G8LXN. Lurking behind the scenes you might find Alan, G3MME or myself, G3PCY, or even Bill, G3UBO on a flying visit. For technical queries you might find yourself talking to Barrie, G8OTY, or Rob, G8MPT, or Keith, G8YQX, or Bob who preceded Keith by getting G8YQL. In a technical world of his own we have John, who doesn't have an amateur licence, but with an M.A. from Cambridge he hardly needs one, does he?

You may get the impression that I'm trying to tell you something — and that is the simple fact that we know what we are doing when it comes to radio communication, and you won't get better advice anywhere in Europe.
