FEATURES

- 1 SMALL & COMPACT, ideal for the small shop. The built-in LCD display gives the need for TVs or monitors.
- 2 LOW COST. Compare this with any other VHF/UHF receiver with these features. On the highest quality components are used to give an excellent performance and price.
- 3 EASY TO USE. No complex buttons or switches. The built-in speaker gives you a clear sound. Just connect to headphones (not to be used with earphones).
- 4 MORSE. Directional hand pointing system. Morse code. 5-50 WPM. Automatic speed tracking. Built-in bandpass and notch filter. Noise blanker. LED bargraph tuning and signal strength indicator.
- 5 RTTY. Decodes and displays both commercial and amateur RTTY. Built-in shift indicator. Automatic printing system. Unique synchronous sampling system for high noise immunity and wide operating range. Two directional communications to decode, edit and display text (45/50/75 Baud - 1704/25 Baud).
- 6 TUTOR. The built-in tone decoder can be used to help you to learn the code. Plus the ability to store up to 100 characters for use in the decoder.
- 7 RS232. For direct connection to computers, terminals or printers at 1200 to 9600 Baud on our software.

V75A

500MHz

THE NEW TEN TEC PARAGON Synthesized Transceiver

An addition to the TEN-TEC range of top quality equipment from the U.S.A.

This general coverage all mode receiver tunes from 100KHz to 29.9999MHz. Modes USB, LSB, CW, FSK, AM, (FM optional). Sensitivity SSB/CW/RTTY 0.15uV. Dynamic range: 100dB on SSB. Blocking and 3rd order Intercept, very impressive figures. Transmitter 200 watts D.C. Input. CW Sidetone, Speech compression.

Write or phone for details of the PARAGON 200w or ARGOSY II 100w Transceiver, CORSAIR II 200w Transceiver, CENTURY 22 CW only Transceiver and other TEN-TEC products.

We also stock KW Traps & Dipoles; Antenna switches; Baluns; Fritz Baluns; Butternut & Cushcraft Beams and Verticals. MFJ (U.S.A.) ATU's; Packet Radio Terminal and RTTY/ASCII/CV computer interface etc.
