

HRT PCB SERVICE

Ham Radio Today can supply ready-made, pre-drilled printed circuit boards for some of our published constructional projects. The first board to become available is the Morse Keyer, published in the January 1989 issue of HRT. The board reference number contains the essential information for identifying and ordering a board from our PCB Service. The first two digits give the year of publication, and second two the month. The extension number gives the number of projects available from that month's issue.

Please send orders to: **HRT PCB Service, ASP Readers Services, Argus House, Boundary Way, Hemel Hempstead, Herts HP2 7ST.** Please make cheques out to ASP Ltd. Payment can also be made through Access and Visa cards by telephone on (0442) 66551 during office hours.
