SUMMER COMPILATION SELLERS

Tom Waits - *Asylum Years* - Asylum
One can't think of a more appropriate title describing the contents of Waits' works. A double compilation album containing the best of his songs.

Cliff Richard & The Shadows - *20 Original Greats* - EMI
Anticipating their reunion concerts in England, a nice collection of some of their best cuts from '58 till '66.

Rolling Stones - *Rewind (1971-1984)* - Rolling Stones
For those of you aren't aware yet that they were (and still are?) the most exciting Rock 'N' Roll band in the world. A winner!

DO BLONDES HAVE MORE FUN...?

Hanoi Rocks - Two Steps From The Move-
CBS
 This band has been slaughtered for their
 arrogance etc. Now they've come back to
 slaughter - stronger than ever. Musically
 they've done more than 2 steps, this strong
 album gives them all the right to be arrogant
 about it anyway. Highlights: many - amongst -
 Don't Ever Leave Me. Hanoi Rocks has
 probably all the necessary ingredients,
 keyboards - guitars - sax - sex, and many side-
 sounds. Pretty Mr. Monroe, certainly knows his
 way around. Blondes have more fun (in bands
 anyway)....

Twisted Sister - Stay Hungry- Atlantic
 Dee Snider, Puppeteer and chief Marionett of
 TS, proves again that he has a brilliant mind.
 On their latest heavy Brainchild, Stay Hungry,
 Hell & Horror overtake the determined
 deliverance of power. (Horror-teria). I Wanna
 Rock is far the greatest creation, however, the
 single We're Not Gonna Take It, is a steady
 drum/bass battle, turning into war. TS express
 their attitude, not to take narrow-minded
 thinking towards them, their music or their
 image, and right they are!

Quiet Riot - Condition Critical- Epic
 This 2nd lp leaves no questions to the fact that
 Quiet Riot's condition is not critical at all! Being
 a fairly new band, in only a short time, they've
 achieved a lot of success. All songs are
 selfpinned, except a fine cover of Slade's
 Mama Weer All Crazee Now. These boyzz are
 quite able to put the sparks of their live
 performances into a studio album. Absolute
 necessary food for headbangers and as one
 track already says: Winners Take All! And
 believe me, they do!

1st INTERNATIONAL MUSIC VIDEO FESTIVAL OF SAINT-TROPEZ

**AN INTERNATIONAL FESTIVAL – AN INTERNATIONAL MARKETPLACE
AN INTERNATIONAL SEMINAR**

OCTOBER 8-9-10-11, 1984

Music Video has come of age and now has its own international meeting-place:
The 1st International Music Video Festival of Saint-Tropez.

The Festival will have 3 facets:

- A competitive festival with a distinguished international jury which will award prizes in a number of categories for both video clips and long-form music videos.
- The only international marketplace strictly for music video programming. The presence of production companies, directors, distributors, syndicators, record companies, music publishers, home video companies, post-production companies, programmers from broadcast television, cable, and satellite all will provide the necessary ingredients for an ac-

tive marketplace, with plenty of buying and selling anticipated.

- A top-level music video seminar open to all participants, and running from 10:00 a.m. to 1:00 p.m. each day of the Festival. Topics to be discussed include the use of music video for purposes other than the promotion of pop music, film/video production of music videos, music video as an element in the programming mix for television and home video, revenue sources, the all important subject of rights payments to those involved in the production chain, as well as the burning issue of exclusivity both in the United States and elsewhere.

This is the first major international event to be hosted by the town of Saint-Tropez, and worldwide reporting of the Festival will be assured by extensive media coverage by the professional and consumer press, radio and television.

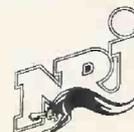

If you are involved in the production, distribution, or programming of music video, this is your festival. We have arranged for very attractive registration, hotel, and travel rates. Can you afford not to be there?

ABOUT THE CHARTS.....

THE EUROPEAN TOP 100 (SINGLES/ALBUMS):
 In many European countries one chart is recognised by the
 music industry as the "OFFICIAL" hitparade and is therefore
 used for the compilation of the EUROPEAN TOP100. However
 there are other countries where various charts are in existence
 and often equally important. For these countries we have
 compiled a number of these charts into one representing the
 sales in that market.
 Each chart position for every country then receives, relevant to
 that position, an equal points rating which is in turn multiplied
 by a factor determined through the latest known sales
 percentage of total singles (or album) sales which that country
 holds in relation to the rest of Europe. There are different
 percentages for singles and albums. These figures are kindly
 provided on a regular basis by the industry-organisations such
 as IFPI-BPI-Gallup-Deutsche Phonoverband etc. A European
 Chart-Committee, with experts from a number of these
 industry-organisations will overlook the calculation system and
 will decide on improvements, changes and updates.
 For the EUROPEAN TOP 100 SINGLES 25 charts are used
 from 16 countries, for the EUROPEAN TOP 100 ALBUMS 20
 charts are used from 15 countries. Since the sales
 percentages of a few countries are too small to get their hits
 into the EUROPEAN TOP 100 (provided these records are not
 charted in any other territory), we are also printing a TOP 3 IN
 EUROPE list each week.
 The EUROPEAN AIRPLAY TOP 50 is compiled through all our
 correspondents tips received this week. (*)Records of the week
 receive extra points. The airplay lists of the airplay report
 organizations within some of the European countries are also
 used in the calculations, as well as playlists of major radio
 stations. (†)Please note that not all received tips appear in
 Eurotipsheet but they are all used for the calculation of the
 Airplay Top 50.
 THE EUROCLIPS LIST shows the music-videos most aired on
 television throughout Europe in the week prior to publication. It
 includes video-t.v.programs and other tv.shows partly using
 video's from 14 European countries.
 For more detailed information on any of the chart-systems
 please contact our chart department.
