Belgian Commercial TV Forges Ahead *TVI To Cover Wallonia*

by Cathy Inglis

The longstanding divide existing in Belgium commercial television will go to a consortium, operating under the name TVI, Television Independente. TVI, formed in December 1985, has as its shareholders Audipresse, a company composed of the leading French speaking daily newspapers, owning 34% of TVI, CLT (Compagnie Luxembourgeoise de Television, the mother company of RTL Television, with a 33% stake) and TV Team, an affiliated company of CLT, owning the remainder.

Italian magnate Berlusconi had still forbidden in Flanders.

Euro Record Co's Urge Tougher Action Against DAT

by Peter Jones

International Trade and Industry.

Earlier efforts were made by the record industry to set up talks with the Japanese hardware manufacturers over DAT problems, but the Electronics Industry Association of Japan is slow to respond.

Masaaki Morita, deputy president of Sony, has said: "Sure, it's necessary to take care of the software problem by putting in some kind of device to prevent piracy. But it is very difficult to find a perfect device."

General feeling in the Japanese industry that DAT launch time is near. Matsushita, JVC, Sony and Sharp are among those planning to market DAT players in combination with CD players. They think this equipment will replace the big-selling LP-audio-cassette decks.

JVC executive says: "DAT is a dream machine. Ever since the transistor was invented, we've dreamed of a machine that could record without distortion, with quality similar to that of a recording studio."

The European recording industry could suffer "a final blow" if digital audio tape (DAT) is "allowed to make an untimely and disorderly appearance in the marketplace." That is the key theme of a music business plea submitted to the European Commission.

The industry wants firm EEC action requiring DAT machines and tapes sold in Europe to be fitted with an anti-copying device, or spoiler, to prevent the new technology being used to pirate copyright material.

And, through IFPI, the record companies demand that the Japanese hold back on introducing DAT software and hardware because it could damage sales of compact disks, now starting to peak through Europe.

IFPI has discussed DAT with the European Commission earlier this summer and EEC Commissioners have stated that it would be possible to introduce EEC-wide legislation on a spoiler and that they would take up the matter with the Japanese Ministry of

UK's PRS Seeks Higher Royalties *BBC & ITV Face Increases*

Britain's Performing Right Society (PRS) is in the throes of negotiations with both the BBC and ITV companies over new royalty charges for the broadcasting of PRS repertoire. It seems certain that the broadcasting industry will eventually face further increases.

According to the PRS Yearbook, British and Irish broadcasters last year upped their royalty payments to the society by 7.5%, to a total £27.86 million, or 37.5% of the PRS total income of £74.49 million, easily a record "take".

Royalties from the BBC alone were up to £16.68 million, this under an interim licensing pact where payments are being paid on account prior to settlement of final terms covering the three-year period ending March, 1986.

Originally the PRS license to the BBC for music usage of its repertoire was based on 2% of its income from

Paris Cables To Receive BBC TV

The installation of cables in Paris is progressing to schedule with the imminent addition of BBC TV. Paris-Cable has been undergoing negotiations with the BBC to the effect that both BBC One and Two will be received on the Parisian cables. A draft agreement has been drawn up and a BBC Enterprise spokesman says that the matter now rests in the hands of Paris-Cable, though a positive outcome is expected very shortly.

In addition to the six French channels

Veronica Show Based On M&M's Hot 100

Dutch television Veronica will broadcast two European shows, based on M&M's European Hot 100 at the Dutch bi-annual international studio and video fair Firato '86, to be held at the Amsterdam RAI exhibition centre August 29-September 7.

Tying in with Veronica's satellite radio experiment, 'Europa Radio Around The Clock', the 24-hours a day satellite radio in conjunction with Europa Television (see M&M Mo. 29), design/presenter Erik de Zwart will host a daily 2-hour programme entitled 'Hitladder'. Running for 12 days the programme will feature the Top 3 of different European countries as well as live telephone interviews with deejays from several European countries.

Veronica presenter Lex Harding and Jeroen van Ikel will present two European shows on Sunday August 31st and September 7th entitled 'The European Hot 100', a 6-hour programme solely based on M&M's European Hot 100.

Together with the Funk Ausstellung in West Berlin, Firato is Europe's most prominent audio and video fair, attracting 326,935 visitors in 1984. With an exhibition space of 46,000 sq

hoped to get the concession but his wishes have been thwarted for the second time now, following his failure to hang onto La Cinq in France.

Agreement was reached last month between TVI and the French community concerning the need of a French speaking commercial television channel. In order to be fully operational the decree has to be recognized by the local government. This, said a spokesman for TVI, was expected around October/November this year and the final go-ahead, which would come from the national government, should come by the end of this year.

TVI sets out as one of its prime objectives that it should be based within the community as opposed to RTL, which is currently broadcast from Luxembourg. In addition a significant part of the programming would be home productions, and the national cultural potential of the French community would be a major factor. TVI can benefit from the long experience in TV programming that its partners, RTL and Audiopresse, have built up over the years. Programming will include the usual films and series which guarantee audiences and therefore the economic viability of the station, new reports by professional local journalists and game shows carried out in collaboration with the newspapers of Audiopresse.

The new commercial TV will be seen via the normal cable networks of RTL.

metres, the fair will mainly focus on the compact disc as well as other affiliated techniques. Apart from promoting the CD as 'the lp of the future', the Firato will also pay attention to the so-called CD (Compact Disc Interactive) systems (together with CD, another joint invention of Philips and Sony), the much-debated Digital Audio Tape, as well as the fast growing video hard and software market.

Philips will have the biggest stand at the fair and Dutch national broadcasting organizations will make programmes live from the Firato.

UK Co Set Up To Aid Producers

Young Producers Stable, a new producer management company, has been set up in London by Brian Hallin, previously financial controller for the group of companies headed by Paul Miles Copeland, who nasterminded production to superstardom.

Initially the new firm plans to handle four up-and-coming producers. Says Hallin, "There is definitely a supply and demand mismatch in the area of record production which needs to be rectified."

"Record companies tend to phone the same half-dozen hot producers in respect of every album project. Inevitably these guys turn out to be tied up for maybe a couple of years ahead. But at the same time some extremely talented young producers are coming through."

Already signed to Young Producers Stable are Chris Allison and Pascal Gabriel. Says Hallin: "The music market is clearly shifting. Bands such as the Shop Assistant, Jesus And The Mary Chain and the Housemartins, all coming from an indie background, are bringing in a more organic sound, while the advent of Fairlight 88 as a sophisticated tool of production opens up new possibilities in the studio.

nels (the three public ones together with Canal Plus, La 5 and TV6), an agreement has also been reached with Ted Turner's cable news Network, a 24-hour news station from The States. Also connected will be Canal J, a television channel aimed at the young which is officially being launched on October 1st and which French group Hachette has already been experimenting on in certain areas. The involvements of RTL, Television and Belgian state-owned TV channel, RTBF, are also likely. Before the end of the year 50,000 cables will be connected and the households will be able to receive around 10 channels for the monthly sum of 120 francs.

Paris-Cable is about to launch a concerted marketing offensive to gain more subscribers.

NEW TALENT

Records by new acts as selected by the editorial team of Music & Media for the Pan-European market and beyond. Active radio/TV programmers, who want to program these records should be aware that these are not necessarily released in all territories. International A&R experts and music publishers on the look out for new deals could contact the original master/publishing owners. Original country and telephone numbers are mentioned as known.

Roxette - Never Ending Love (EMI) Sweden

For publ. and master owner contact Marie Dimberg, tel. 8-764620x, 01. 10046.
The Swedish have this strange penchant for melodic mainstream material, compositions that maintain a perfect balance between commercial and artistic achievements. This single couldn't be a better example, with its duet vocals against clever and well-crafted arrangements. Two well-known Swedish solo artists, Per Gessle and Marie Fredriksson, have teamed up to produce a definite hit! Already 19 in the Swedish National charts and deserving a release in whole of Europe.

Sultan - Rebel Fire (New Talents Agency) Switzerland

For publ. and master owner contact Andre Simha, tel. 22-23202, 01x. 27460.
Talented Swiss hard rock band with a solid rock sound much in the Scorpions/Warlock-style. A double A-sided single with subtitles 'Rebel Clever' and 'Power Of Fire' of which especially the latter attracts with its flashing overblasts in the chorus where the lead and backing vocals are mixed with sounds of a thunderstorm.

Blind Date - Hit The Road Jack (Ariola) Germany

Publ. Tangerine/Leeds Music; master owner: Ariola, contact Juezy Hellwig, tel. 89-4136252.
German-American 9-piece formation with a powerful cover of the ultimate party hit, 'Hit The Road Jack', a number one hit in the US for Ray Charles exactly 25 years ago. The hectic mix of vocals, horns and heavy guitars produce an inviting and contagious atmosphere.

Sky High - I'll Play The Blues For You (Mega) Denmark

For publ. and master owner contact Martin Dodd, tel.: 1-11711.
Swedish blues/rock band with a steaming and punchy ZZ Top-like rocker. Produced by Frank Marstokk and taken from their album 'Freeze 'Ho'.

Spellbound - Rockin' Reckless (Sone) Sweden

For publ. and master owner contact Lars-Olof Helens at Sone, tel. 8-7670150, 01x. 10037.
What happened to the Swedish hard rock band Europe (breaking all over 'Europe'), can happen to Spellbound as well; high quality hard rock that, somehow, without even being really original, manages to get the message across. A very good front vocalist, strong backing vocals and a hard-hitting sound with guitars up front. Produced by Vic Mautle who also did the production of their current album with the same name.

Bluff - Mamma Mia (EMI) Portugal

For publ. and master owner contact David Ferreira, tel. 6168131, 01x. 16696.
A typical summerhit, a club favourite in the Portuguese discotheques at the moment. Simple lyrics and corresponding infectious samba rhythms make this a sing-a-long community event.

Jennifer King - Straight From The Heart (CNR) Holland

Publ. Naia Int.; master owner: contact Michel Wolff, tel. 2940-15244.
Dutch MOR pop, if covered, very suitable for the German market. Somewhat restrained vocals in a colourful and inventive production.

Several New Talent selections from earlier issues. For detailed information on a particular record please check the corresponding magazine.

NEW TALENT UPDATE

This column gives a weekly update on the progression of M&M New Talent Tips in Europe

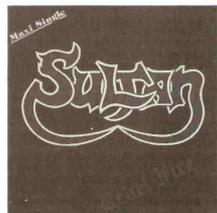

"Hoodoo Wanna Voodoo" - Another determined call for care-free partying from the Swedish act Trace Dance. It is the follow-up to the infectious pop single *Do The Dance*, once an M&M New Talent Tip in issue 17 of this year. Their new single will be released mid-October followed by their first album entitled *Do*, which will be out around beginning of November.

At the moment the band is still picking up good radio reactions in the whole of Europe and, although the single never actually charted, the band seems to be building up a good basis for future success. The video got good airplay on the satellite services Music Box and Sky Channel, while the single was a club hit in France and Italy. Currently the band is touring Sweden and Finland and they will make a presentation for the CBS Records International meeting in New York this month. Stay tuned in for the new single, on your desks very soon!

SWITZERLAND

An unchanged Top 3 in Switzerland headed by **Level 42**, followed by **Madonna** and **Bananarama**. Three new additions to Top 10 include **Lionel Richie's Dancing On The Ceiling** up 7 notches to no. 7, **Janet Jackson's Nasty** and local group **4You** with *I Was Made For Loving You* (10-18). Other good moves for Italian Baby Records act **Fahrenheit 104** with *Highway To Freedom* (11-23) and **Radio Rama's Vampires** (13-24). Several new entries this week, amongst which **Rob Stewart**, **Chris De Burgh**, **Five Star**, **Spandau Ballet** and **Valerie Dore** who has had enormous Eurobeat hits such as *The Night*. Likely contenders for an entry next week include **Tina Turner**, **Depeche Mode** and **Spagna**.

SWEDEN

Last weeks no. 1 **Samantha Fox's Touch Me** is replaced by the same artist's second single *Do It Do It*. She is followed by **Level 42** and **Lionel Richie** which rise one notch each. **M&M** New Talent tip this week **Roxette's Never Ending Love** has a good move up to 9 from 19. **Hollywood** Beyond enters straight in the charts at 8 with *What's The Colour Of Money* and further entries for **Devise** with *Hanging On A Heart Attack* (**Devise's** album also enters the lp charts this week at 26), **Berlin** with *Take My Breath Away* and **Tina Turner** with *Typical Male*. **Lionel Richie's** album *Dancing On The Ceiling* shoots straight into the lp charts at 2.

This week Music & Media presents some of 1986's successful summerhits, acts mainly spotted in our New Talent columns at a very early stage and whose paths we have followed very closely. Some of them are very well known, others still need to break in the UK or France.

The phenomenon of the summerhit is a yearly recurrent event; masses of peo-

ple from the Northern European countries spend their holidays on the Mediterranean shores and whilst worshipping the sun during the day, they dance to Latin and Continental European disco sounds during the night. In this way every year a few Italian, Spanish, German or even Dutch productions cross over to the European charts.

Matia Bazar Delivers With Feeling- M&M's long time fave, the Italian 5-piece formation **Matia Bazar** finally get the recognition they are fully entitled to. Fronted by lead singer **Antonella Raggero**, the band specialises in high class pop with stirring melodies against a high-tech production. *'Ti Sento* (*I Feel You*) went to no. 1 in the Italian charts and it is now charted in Holland (where it went to no. 1), Belgium (Top 20) and last week's second highest entry in the German charts at 28. *The band is originally signed by Arston and it is the company's biggest success story so far.*

Rapping Into Europe- A rap version of **Madonna's** *'Holiday'* (*Holiday Rap*) suddenly emerged on the European club scene beginning of July. The single, done by two Dutch rappers, **M.C. Miker 'G' & D.J. Sven**, soon went to no. 1 in the **BeneLux** (sales have exceeded 150,000 copies) and **Germany** followed suit, where it shot up to the top, after only three weeks. At the moment it approaches over 200,000 copies. A UK entry is expected next week.

Many holiday makers heard the single over and over again in the French and Italian discotheques which certainly contributed to its current success. **D.J. Sven**, 23 years of age, used to be a dj in a Dutch discotheque while **M.C. Miker 'G'** (18) was a well known rapper having popular shows on a Dutch private station. The two met in **Sven's** discotheque and recorded a demo-tape that turned out to be a heavy favourite on the private station. Dutch record company **Dureco** heard the result and linked the two with producer **Ben Liebrand**.

Hey Ivan- Spanish singer **Ivan** reached tremendous success in Continental Europe with his former singles *'Fotomodel'* and *'Baiba'* having sold over 1 million units. His latest effort for European stardom, *'Hey Mademoiselle'* is currently a huge favourite in the Spanish discotheques and undoubtedly within a few weeks this club success will be translated into European chart success. Mark our words...

Very Easy- Together with **Den Harrow's** *'Bad Boy'*, *'Easy Lady'* by the female singer **Spagna** is the most successful Italian production of this year. The single is currently no. 12 in the European **Hot 100** and is charted in France, Spain, Italy and Belgium and was a heavy favourite during the summer months in the Italian, Spanish and French discotheques. Out on CBS, the single features rocky vocals over catchy and danceable synthesizer patterns.

Germany's Most Successful Export Product Since Boney M.- The popular duo already sold an estimated 30 million records worldwide (including singles, albums and compilations). Their debut single, *'You're My Heart, You're My Soul'* sold 5 million copies worldwide of which 1 million in France alone.

While their single *'Atlantis Is Calling'* was firmly planted in the European **Hot 100** Singles (reaching a highest position of no. 9), holiday makers mainly from the UK suddenly crazed about their former single *'Brother Louise'*, which received massive airplay in the Southern European discotheques. At press time the single is already no. 12 in the UK (and 6 in the **Hot 100**) and will definitely enter top 10 this week.

So far their record company **Hansa** has issued 5 singles which all went to no. 1 in their home country. All their three albums went platinum as well.

EURO-CROSSOVER RECORDS:

ROXETTE- NEVER ENDING LOVE (EMI Sweden)

Chris De Burgh remains for the second week on top of the European Airplay Top 50, while Bruce Hornsby and Huey Lewis are heading for Top 3. The increase in airplay for Tina Turner's *Typical Male* stems at first slow with the single moving up only one position this week. However, the single is gaining in points and it's small upward move is due to the tight competition and an unchanged top 3.

The success of the new Human League single, *Human*, has definitely been boosted by the cool and persuasive production of Jimmy Jam and Terry Lewis. However many feel that the band sounds like a second rate S.O.S. Band and has lost some of the appeal of their earlier recordings. Whatever the case, the single is a definite fast mover in the Airplay Top 50, bulleting from 17 to 10 this week.

This week's Airplay Top 50 has seen a consistent pattern of new entries as all the singles that were Hot Radio Adds last week continued to get very good airplay on European radio. And all enter the Airplay Top 50 this week. The most obvious candidate of a second rate S.O.S. Band has had some of the appeal of their earlier recordings. Whatever the case, the single is a definite fast mover in the Airplay Top 50, bulleting from 17 to 10 this week. Dutch duo M.C. Miker "G" & Deejay Sven have second best Airplay entry this week with *Holiday Rap* entering at 35. It is not very common for Dutch productions to enter the European charts and apart from Mai Tai in 1983, it happened twice in 1984 with Art Company's *Susanne* (that stuck at 11 in the European Hot 100

Singles) and Time Bandits' *Reach Out* that entered The European Airplay at 21. For more details on this successful disco-rap song see page 9 of this issue where some successful Summerhits are spotlighted.

Genesis have two singles in the European Airplay Top 50 with their latest *In Too Deep* debuting at 36 and *Invisible Touch* following straight after at 37. Many European radio stations have added the beautiful ballad to their playlist and apart from being featured on their platinum selling album *Invisible Touch*, it is also included in the Palace Pictures' forthcoming motion picture 'Mona Lisa' which stars Bob Hoskins and has recently opened in the UK.

Wild Wild Life is the new Talking Heads single with their forthcoming LP *True Stories*, also

the name of a forthcoming Talking Heads film. With its contagious melody on the airplay down-to-the-bone rhythms, it already picked up quite some airplay from our counterparts and the single debuts at 44 in the European Airplay.

Watch out for the long awaited Billy Idol single entitled *Be A Lover*, out on Chrysalis September 22. The single, a driving and raw rock'n'roll, comes from his new album *Whiplash*, out October 15. Stay tuned for that one!

Expect hot radio action next week with the new single of George Benson (*Kissin' In The Moonlight*), the moody and beautiful ballad of Cyndi Lauper, *True Colors* and the downtempo ballad from Toto, *I'll Be Over You*.

SILK & SMOOTH

New Jersey band **The Smitheereens** are one of the priority bands for the recently established Enigma Europe company. And it is not hard to understand why: their LP *Especially For You* contains charming pop songs with Boatswain chords, tinged with Paisley and garage rock influences. Pop in its purest and most unadorned form with no other intention than to please and enchant. A powerful debut, simply abundant with good tracks like the glorious *Behind The Wall Of Sleep*, the lovely duet with Suzanne Vega in *In A Lonely Place*, twanging guitars in *Blood & Roses* (a track already picking up good shows from some of our correspondents), psychedelic overtones in *None At Midnight* and 'Twist And Shout' guitars in *Time And Time Again*. Produced by the ubiquitous Don Dixon and a sure shot album for your show!

Preceded by two hit singles, *Can't Wait Another Minute* and *Find The Time*, *Five Star* release their second album for Ten/RCA this week. Entitled *Silk & Steel*, the LP is a logical continuation of the fashionable r&b/dance grooves on their debut LP. New tracks like *Rain Or Shine*, *If I Say Yes*, *Are You Man Enough?* or *The Slightest Touch*, make one realise what makes the Pearson Concept so successful: polished and poppy melodies, succinct harmonies and an ultra smooth production combined into a very effective framework. With the above mentioned titles the album yields at least 4 new hit singles for the group.

While *Jermaine Stewart* is finally getting the success he deserves with his *We Don't Have To*... Records this week. Assisted by hot shots like Narada Michael Walden (who produced 7 out of the 9

tracks) and John Jellbey-Bentzen, Stewart comes up with a very cheerful and upbeat disco album with the emphasis on danceable funny disco pop. Sheer pleasure seems to be the keyword and faves on this excellent album include *Frantic Romantic*, *Our To Paradise* and the Walter & Trueman Hawkins backed ballad *Don't Ever Leave Me*.

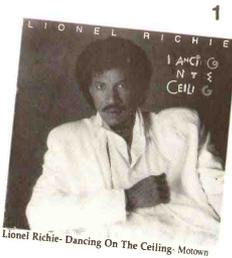

Gwen Guthrie is enjoying lots of chart success in the UK with the truly soulful single *Ain't Nothing Goin' On But The Rent*. With a voice rich in depth and emotion Guthrie delivers a balanced set of electro-soul-funk and black INRG. on her first LP for Polydor. *I Still Want You*, is a good follow-up to the 'Rem' single and the title track (much in the Pointer Sisters' 'Neutron Dance' vein) is recommended as well.

David & David is a duo from America debut on A&M with an album called *Boomtown*. Intriguing and well crafted songs, coloured by delicate and moody arrangements. Convincingly sung (in a voice reminiscent of Jerry Ropke - is there anyone out there who still remembers him?) and offering stand-outs like *Welcome To The Boomtown* (if released as a single, a definite hit!), *Being Alone Together* and *River's Gonna Rise*. After Suzanne Vega, Marti Jones and Rosie Vela, another A&M New Talent to watch out for!

German rockband Warlock have their third album released this week, coinciding with their appearance on the Monsters Of Rock Festival in Mannheim, Germany (see separate article on page 21). The band combines a heavy rock slant with a more mainstream production approach, making tracks like *True As Steel* (having a whole lot of invited fans singing along on backing vocals), *Love In The Danger Zone* and the ballad *Love Song* very suitable for radio play.

TUNING IN

Richard Hallifax is an English deejay at Radio VSD in Gothenburg, Sweden.

"VSD is one of the most popular stations in Gothenburg with an estimated audience of between 30,000 and 50,000 listeners. Since our station plays almost 95% music, there is only minor competition from the national

radio, Sveriges Riksradio, as they broadcast comparatively little music. I am responsible for on average three gigs a week. Live shows which could take place anywhere in the country. I travel all over Sweden and compile the most popular records as well as having a Top 10 show, based on requests.

The Sveriges Riksradio have the monopoly in this country, but their deejays tend to be mere announcers. What a Swedish radio needs is more chatty style of deejay, as are found in the UK.

Most of the music I play is Anglo-American with roughly 5% devoted to local products. Sweden is currently bursting with talent, but the acts don't get the marketing or management needed to break here. However, at the moment there are a few groups which I think have a good chance of becoming hits outside the country. Pernilla Wahlgren & Emilio Ingrassia's Paradiso could well be a hit. The band Europe also has great potential, and Lasse Holm with his Swedish song

Canelloni Macaroni, if sung in an English version would, I think, be a big hit. Another very good act to watch is CBS' Trance Dance.

The basic problem in Swedish radio is that the country needs commercial radio. VSD has survived for eight years on private contributions, but the play commercial radios are legalised, the general standard of radio will increase tenfold. Discussions are currently going on within the government. I believe what happens eventually will be that it will take years. The kind of healthy competition which exists in England can only come about with the advent of commercial radio. However the arrival of of satellite is to be beginning to change matters in Sweden. Roughly 5% of our country is now receiving Music Box and Sky Channel and kids are inevitably picking up new stuff, which in turn is affecting the type of music they wish to hear on the radio."

The editor welcomes comments on the issues raised above.

Phonogram Confirms Four Acts At Monsters Of Rock

Members- Alexandra of Warlock and Gary Moore are visited backstage by M&M's Alexandra v.d. Broek after their successful appearance at the Monsters Of Rock Festival in Dornington, Germany. From l. to r.: Niko Arvanitis, Warlock guitarist, Bob Daisley, bassplayer with Gary Moore, Alexandra v.d. Broek and Michael Eairch, Warlock drummer. (Photo: Charly Rinne)

Of the six hard rock acts playing at the Monsters Of Rock Festival in Mannheim, Germany, on August 31st, Ozzy Osbourne, MSG (the new lineup of Michael Schenker, the McAlule-Schenker group), Warlock, Bon Jovi, De Leppard and The Scorpions, the latter four are signed to Phonogram. Headliners The Scorpions just signed a worldwide deal with PolyGram Inc. and will release their new product now via Phonogram/Mercury worldwide. At the moment the quartet is working with producer Dieter Dierks on a new studio album.

De Leppard is still working on their new album, and together with Mutt Lange, new material is expected end of this year. The band played to good critical acclaim at the recent Castle Donington Festival, their first UK show since December 1983.

German hard rock band Warlock was also one of the acts appearing at Castle Donington and their performance in Mannheim coincides with the release of their new album "True

As Steel". Laston Bon Jovi's new album 'Slippery When Wet' has just been released and their single 'You Give Love A Bad Name' is enjoying good positions in the UK charts.

Phonogram IN, in conjunction with German Phonogram GmbH, has set up special 'Monstersactivities' including the flying of PolyGram executives and media people from around the world. Two hundred guests will be invited at a special Phonogram tent backstage and there is much speculation about a secret party taking place after the festival somewhere in Mannheim. Several merchandising articles like balloons, sky writing air-planes, palm trees, will be produced as further promotional tools for the Phonogram acts.

For Warlock and Bon Jovi the Monsters Of Rock Festival will be a good rehearsal for their upcoming tours, with Warlock supporting Wesp and Judas Priest in the UK and Europe, while Bon Jovi will start up a headline tour late October/November.
