Sham nix RAR gig to avoid 'trouble

SHAM 69 have pulled out of this Sunday's big open-air rally concert in South London's Brockwell Park at Herne Hill.

The show, organised jointly by Rock Against Racism and the Anti-Nazi League, climaxes a carnival which starts in Hyde Park on Sunday morning. The concert now features Elvis Costello & The Attractions, Misty and Aswad.

Attractions, Misty and Aswad.
Sham's Jimmy Pursey explained that the lans' safety was the main reason for their decision to quit. He said: "We've been made to feel that our presence at large gatherings is likely to incite riots—and if there is one, we'll get the blame just for being there. Unfortunately our name is linked with trouble, and we don't want our being there to jeopardise the success of the day and the cause."

A spokesman for RAR said he

A spokeman for RAR said he thought Sham's desision was "a mistake", but nevertheless he understood their point of view. And he's hoping that Pursey will at least make a personal appearance at the event.

NLY ONES

THE ONLY ONES headline major London gig at the Lyceum in the Strand on Sunday, October I, as the highlight of their "Planet Tour" — named after their current CBS single "Another Girl, Another Planet". Support acts at the Lyceum are The Business and Bram Tchailkovsky's Bartleaxe, and tickets cost £2 (advance) and £2.25 (on the night).

Other confirmed dates are Harrow Technical College (tomor-row, Friday), Birmingham Barbarella's (Saturday), Landon City Polytechnic (September 30), Aberdeen Ruilles (October 4), Edinburgh Astoria (5), Sear-borough Penthouse (6), Leeds Fan Club (12), York Revalution Club (13), Redear Coatham Bowl (15), Doncaster Outlook (16), Braintree College (20) and Shefield Limit Club (27), More are being set.

PERE UBU, the avant-garde new-wave outfit from Cleveland who made their UK debut earlier this year, are returning later in the autumn for a full-scale tour. They'll be headlining a three-week gig series taking them all round the country, prior to leaving for a European tour.

Full details of their dates and venues are still being the properties of the summer repairing and recording a new album, and this is tentatively planned for release on November 10, but the outfel is still uncertain.

Stranglers deny 'split'

THE STRANGLERS this week denied reports in the London Evening News that they're considering splitting up. The story quoted Jean Jacques Burnel as saying they were all sick and tired of the criticisms being levelled against them, and that too many people were after their blood. "We don't want to split, but the situation looks bad" was one of his alleged quotes.

Blood. "We don't want to spil But this week Burnel explained that he'd been "taking the Evening News for a ride". He told NME: "There's no way we shall be breaking up, and no way anyone can break us up."
Burnel is also directly involved in what may be a "Top Of The Pops" han on The Stonglers. It seems he broke down a dressing room door when the band were last at the TV Centre, and they were immediately told that they would never again be invited to appear on the show. This week the BBC said that, even if the Stranglers were banned, it wouldn't be announced officially — "we don't want to give them free publicity", said a spokeman.

Meanwhile, the band have now

said a spokeman.

Meanwhile, the band have now re-arranged the two Scottish dutes they were forced to postpone earlier this month, due to problems with their equipment. They're playing the revised dates after their September 30 concert at Glasgow Apollo — they are Aberdeen Ruffles (October 2) and Dunfermline Kinema (3).

Buzzcocks head queue at Apollo

THE BUZZCOCKS have added a THE BUZZCOCKS have added a concert at Glasgow Apollo to their major 33-date. "Beating Hearts" tour, opening at the end of the month. It's on Saturday, October 21, and it follows last week's official announcement that the Apollo is now back in business as Scotland's leading rock venue. As a prelude to their tour, the new Buzzcocks single "Ever Fallen In Love (With Someone You Shouldn's)" was issued last Friday, and United Artists release their second album "Love Bites" this weekend.

With the Apollo now active again, promoters are rushing to include the venue in tour schedules. In addition to bookings

announced itineraries.

Subway Sect are officially supporting The Buzzcocks on lour, but two members of the original line-up — Paul Myers and Robert Simmons — called into the NME office on Monday to claim NME office on Monday to claim they'd been squeezed out of the group. "The present Sect has only one original member left, and nothing's been announced about these changes, so we want the public to know that they're not seeing the band they might expect," they said.

ADVERTS, CHELSEA TOURS

THE ADVERTS are playing a string of occasional dates during the next month, mainly at weekends to allow sufficient studio time for the recording of their second album. They visit Middlesbrough Rock Garden (September 28), Stirling University (20), Edingburgh Herior Watt University (30), Loughborough Town Hall (October 8), Doncaster Outlook (9), Birmingham Polytechnic (13), Guildford Surrey University (14), Uxbridge Brunel University (20), London Woolvich Thames Polytechnic (21), Birmingham Aston University (27), Fife 5t. Andrew's University (28) and Dumfnes Stagecouch (29), In early November they start a short Irish tour, including Coleraine Uster University (1) and Belfast Queen's University (27. Another British gig series begins al Bahl University (November 10) and Plymouth Polytechnic (11).

CHELSEA have now fixed the first dates in their "Urban Kids Escape Tour", their debut outing with their new permanent five-pieces line-up, built around vocalist Gene October. They play Leeds Fforde Green (tonight, Thursday), Nottingham Sandpiper (Finday), Margale Dreamland with The Police (Saturday), London Marquee (October 17) and Donaster Outlook (30). DEREK JOHNSON

U.K. concerts by SANTANA

at the end of next month to headline six concerts, three headine six concerts, three of them at the massive Wembley Arena (formerly the Empire Pool). Promoted by Mel Bush they play Wembley (October 30, 31 and November 1), Stafford Bingley Hall (3) and Manchester Apollo (4 and 5).

The band's personnel comprises Carlos Santana (lead guitar), Graham Lear (drums), Paul Rekow (congas and percussion). Pete Escovedo (timbales and percussion), Greg Walker (vocals) Armanda Peraza

(congas), David Margen (bass), Chris Solberg (rhythm guitar) and Chris Rhyne (keyboards). This line-up is featured on their new album "Inner Secrets" to be issued by CBS on October 13. Wembley tickets are £3 and £4, and are on sale now at the box-office, but postel bookings will only be accepted until September 29 (cheques to "Wembley Stadium Lid."). The same prices apply at Manchester, where the box-office is now open. At Stafford there's just the one price of £4.50 — ticket's from Bingley Hall, Cyclops Sounds (Birmingham), Sundown Records (Wolverhampton) and Mike Lloyd Record Shops (Stoke).

BONEY M, the hugely successful American quartet who are based in Germany, return to Britain at the end of the year to headline six major concert appearances. They play London Hammersmith Odeon (November 30 and December 1), Birmingham Odeon (December 2), Liverpool Empire (3). Manchester Apollo (4) and Brighton The Centre (5). And there's a possibility of at least one more date being added.

date being added.

Tickets are priced £5, £4 and £3 at Hammersmith, and elsewhere they are the same but with the addition of £2 seats. Mail order bookings are being accepted immediately by the respective venues (to whom cheques should be made payable). Box-offices at Hammersmith and Manchester open to personal callers tomorrow (Friday), but at the other three venues it's post only. Promoter is Danny Betesh of Kennedy Street Enterprises.

In terms of singles sales, Boney M have been the most consistently successful recording act in Britain over the last two years. They were No 2 in the NME Chart Points Table for 1977, and seem certain to finish either first or second this year. A new single will be issued to the in with their tvisit, but don't be suprised if their current single — which has already been in the Top Thirty for 22 weeks, is still around at the time! And with their latest album also a chart-topper, they seem to have overtaken Abba in the MOTR popularity stakes.

RAY CHARLES

RAY CHARLES returns to Britain next month to headline live big concerts. Backed by his full touring revue, including his orchestra and The Raelets, he plays two shows at Birmingham Odeon (October 11), two at Edinburgh Usher Hall (12) and one at London Royal Albert Hall (13).

Hadf (12) and one at London Royal Albert Half (13). Birmingham tickets (£8.50, £6 and £3.50) go on sale this Friday, while at Edinburgh (£7, £6, £5, £4, £3 and £2.50) they are already available. The box-office opens on Saturday at the Albert Half where top price is a massive £12.50, with other seats at £10, £7.50, £4, £3 and £2.50. The concerts, which precede a European tour, are promoted by SNR Productions and popular Entertainments Ltd. A new Ray Charles album "Love And Peace" will be issued on the London Jabel to coincide with his visit.

NEW BANDS, BUT M.U. win

FEWER GIGS FOR

Marquee pay deal

THE DISPUTE between London's leading rock club senue, the Marquee, and the Musicians' Union has been settled — and the union has withdrawn its threat to bun its members from appearing there, which could have left the club without live gigs.

The argument concerned the fees being paid to support bands, which the union insisted were inadequate. Now the Marquee has agreed to pay a oninismon of EA.5, from October 1, to every member of a support group.

Prior to this, support acts were paid out of the headfiner's money, which assaully meant they netted between E5 and £35 for the whole band. The Marquee argued that they couldn't afford more money—and anyway, upcoming outflish were glad to play the Marquee for expenses only, because of its showcase status.

An MU spokesman fold NME: "Even if it is a showcase, we still the nine was the support of the sent of the sen

showcase status.

An MtU spokesman told NME:
"Even if it is a showcase, we still
consider they should be paid a
reasonable minimum. Until now,
a lot ul bands couldn't even
consider playing the Marquee,
because they would actually have
lost money."

last money."

But the deal could have a back-

last money."

But the deal could have a backlash, because the Marquee say
they will now have to make do
with fewer support bands — which
means that, on some nights, there
will be just the main act and no
second attraction. So some upand-coming bands may well be
asking if the union really has
sourced a victory on their behalt.

Meanwhile, the MC is now
turning its attention to other
London secues which—if claims
— are operating similar policies of
underpoping support bruds. Said
the union's Make Evans: "This is
just the beginning ut our
campaign. We shall now be invetigating the position at places like
the Rock Garden, the Music
Machine, the Hope & Anchor and
the Nashville."

AUTUMN GIGS BY MANILOW & VAN HALEN

BARRY MANILOW — one of America's top record sellers and concert attractions, though still to realise his full potential on this side of the Atlantic — makes his firitish debut next month when he appears at the London Palladium on Monday and Tuesday, October 9 and 10. During his visit hell also be guesting in Michael Parkinson's BBC-1 show, and on October 23 he films his own BBC-TV special at the Royal Albert Hall for December transmission. HUS IT was with a spring in my step and these songs in my heart that I made my way to Danny Fields' office to interview the hand on the eve of their current European tour. They were minus an ailing Dee Dee, but new drummer Mark not onty fits in perfectly but was extremely sounseigns.

I was listening to the new album and 's really negative, JOEY: It's our "Berlin", y'know.

JOHN: I dunno. I guess we just got warped somewhere, a lotta pressure on us. It's like, carry it out — go mental. There's a lotta mental disorder on that album. It's all just life

mental. There's a lotta mental disorder on that album. It's all just life piln' up on us.

Does it have anything to do with putting out three great albums and still not being able to get a his single?

JOHA!- Frustration, you mean? I'm sure that's a lot of it too. It's everything. We re feeling a lot of pressure to make it.

MARK: It's not just that. A tot of people feel this way, like the songs in this album. They're written for kids who are really frustrated: "I Wanted Everything." My favourine is "I Just Want-Something To Do" cause I feel like that all the time now. Don't you?

Sure. But it must be really distressing to have gone for three or four years now and still be bunging on the door of mass acceptance.

and still be banging on the door of mass acceptance.

JOHN: Yeah, well, its been steady but slow. We've been progressively getting bigger. But when you see groups just pop up doin' what everybody else has been doin' and become big all of a sudden, when we feel that we're one of the few groups doing something original.

Do you ever resent any of these groups that 've come up after you and sound exactly like you?

JOHN: No, 'cause they don't really sound like us. It's nice that us and the New York Dolls and The Stooges, a little bit of each influenced a whole movement.

Didn's some disc fockey say he wouldn's play anything with your name on it no matter what it sounded

JOHN: Yeah, I've heard that one. They just take the records as soon as they some out and throw 'em in the

garbage.

Why did you make the songs on the
new album more complex?

JOHN: I don't think we came to
any kind of real decision. We just
write 'em. You learn how to write a

progression, y'know. It's nothing conscious, just one step. You don't sit down and try to write more

down and try to write more progressive songs.

JOEY: More regressive (taughs).

JOHN: I just think we wanted to write more medium-tempoed songs than in the past. I listened to the last album and there's about ten superfast songs on it. It's easier to listen to when there's more medium-tempoed songs.

Songs.
Do you think the Stones on the new album are responding to New Wave?
JOHN: Yeah — the single cover, standing against a brick wall with their leather jackets on . . . plus all the groups I noticed are parting more sones on their albums.

groups I noticed are putting more songs on their albums.

Did you think when you started out that was gonna happen?

JOHN: Yeah, I expected it to happen faster. I thought right away as soon as they'd seen us and heard the lirst album it was gonna happen. But that was probably naive and we weren't ready for it yet. But we're ready now.

Do you ever feet desperate?
JOHN: Not yet, although I don't feet like waiting another two years to get big. As far as making it, we're

trying to still be ourselves. But trying to still be ourselves. But sometimes you start thinking weird, when they keep telling you this stuff isn't suitable for radio play. But all we really can do is be ourselves, so we don't really worry about that much. As far as things like "Don't Come Close" and "Questioningly," we had written stuff like this before but played it in different styles. These are played more or less in the styles they're supposed to be in. they're supposed to be in.

OU'RE going to Helsinki on Sunday. What's it like over there?

JOEY: It's weitd. It's kind of communistic, so they're really starved for rock 'n' roll, so they go crazy.

JOHN: Well, they made an announcement the first night we played, at the Communist Cultural Center, that if anybody stood up or did anything they were gonna stop the show. We saw all these guards standing around, and if any kid would stand up, the guard would look at him and be'd sit down. We told 'em don't listen to these people, stand up, so they all jumped up and ran to the front. They were pushin' this one

guard against the stage so I kept leanin' over and shakin' my sweat on him.

When you play places like that do you sing songs like 'Commondo' and tyrics like 'I don' like communists'?

JOHN: Oh, yeah, yeah,
What kind of reaction do you get?
JOHN: They don't understand, they don't know English (laughs). We weren't sware of it at first . We'd say things like 'Nice to be here, we're goans do this song,' and everybody was just standin' there with their mouths hangin' open.

Do you ever get the feeling that some people in your oudernce act in ways that they think punks are supposed to act, because they feel that's what's expected of them?

JOHN: Yeah, I'm sure that's what they think. In England they spit at you want. We don't like that because it's very distracting, and what we do takes a lot of concentration.

Why do you think people do things like wearing guarbage beggt?

JOHN: I guess it's just fun for them, a trend. I remember when glitter was in it was fun for everybody to do all that stoff. I really like seeing regular all-American fans out there, because when the whole audience is weirdos. JOEY: Like you got a little unfairly that stoff. A word in the prong stop.

Ever feel like you got a little unfairly that stoff is what he whole a unfairly that stoff is the stoff.

wrong stop . . . Ever feel like you got a little unfairly roped into the whole English punk rock

roped into the whole English punk rock trip?

JOHN: Yeah, but left out at the same time. We started hearing stuff like "Here's this new thing, punk rock, started over in England," then we'd go to interviews and they'd ask, "So you guys started after The Sex Pistols, how were you influenced by them?"

When we first went over there, those guys in all those groups. The Clash, The Danmed, Sex Pistols, were standing out in the alley trying to get into our sound check, and they didn't even have groups yet!

Not that I'm saying we started it, either: punk rock began with Elvis Presley and Gene Vincent, then there were a lot of groups in the '60s, Billy Altman hed the original Pank magazine out in 1973, and you always mentioned punk . . . but rock 'n' roll since it santed was lorg punks. I remember when I was a little tiny kid sitting there seeing Elvis on TV and my father going "That dirty punk!"

SAW something in "Circus" magazine where you sold Johnny Rotten you thought The Sex Pistols were no good.

Rotten you thought The Sex Pistols were no good.

JOHN: Well, he came over to me and said "What'd you think?" and I said "I thought you guys stunk." He said. "Well, I think you stink too."

JOEY: He liked "Happy Family."

Why didn't you like 'em?

JOHN: They were terrible live.

Sloppy ... maybe they got better during the American tour, I dunno, but they were very unprofessional and I'd expected to see a somewhat professional group. I guess I shouldn't have thought that because they hadn't played for a year.

The records sound very good if you take one song out of them here and there: a little monotonous.

Yknow, they had their backdrop with all this stoff sprayed on, I guess that's their thing, but no drum platform, no lights at all, the PA sounded swint, little tiny amplifiers — it was just a inkivdink thou. They should be loud.

iguis at aw, the ra sounced awni, little tiny amplifiers — it was just a rinkydink show. They should be loud and powerful, I mean they're a good group, y'know?

Maybe they're supposed to be unprofessional, but there's a certain standard kids in America expect — a whole lot less nornic rate to see us.

whole lot less people came to see us the last time we played Tulsa because The Sex Pistols had just been there

and played like shir.

Did you see anything in NME that
Tony Parsons wrote about you?

JOHN: Yesh, he should come to

see us the next time we're over there and we'll streighten him out. The guy had a hommer and sickle buttons on, he was a commie, and I knew it as soon as I saw him. I had him pegged.

Well, just because he wears a button oesn't mean he's a commie.
JOHN: Well, then why's he wearin'

in—for effect?
You think everybady that wears a swantka is a Nazi?
JOHN: Umm . . . maybe.
Probably. Or at least they want to be a Nazi.

Don't you think kids put stuff like that on just to make people mod?
JOHN: I dunno. I don't like it when I see it. I know a lot of people are offended when they see swastikas, but swastikas are a little more camp than hammer and sickle buttons. I mean, the Nazis lost the war, and there's no threat right now of any Nazi thing, but there is a communist threat.
Well, the English kids have the threat of a right-wing takeover there.

threat of a right-wing takeover there.

JOHN: Yeah, but do they want the communists just to come and take over?

AS Parsons on tour with you guys?

JOHN: No, he was with us live minutes. He was supposed to meet us at the hotel, ride with us to the job, be with us at the soundcheck, spend the rest of the day with us and see the show. see the show.

see the show.

He got there, was with us for a five minute ride, disappeared and we never saw him again. He didn't ask us one question, all be heard was conversations between us — that's an interesting the same as the same and the same as the sam

conversations between us — mat's an interview?

He was insulted I guess because somebody in the car asid "Whatta you think of Generation X?" and they said they stunk. The guy harped for that whole page about Dee Dee's tooth chipping in the car; I don't know what that has to do with anything.

Also, that we were staying at the Holiday Inn — where else do most groups stay? Also that we were being transported — 12 of us piled into one limousine, which I guess he figured that it'd be better for us to take four taxis, that it'd be cheaper taking four taxis back and forth five times than renting one limousine and squeezing renting one limousine and squeezing

renting one ilmoustine and squeezing into it.

He twisted everything we had to say, like me saying "Let's get this over with quick and get out of here," meaning the sound check the day before; it was a second sound check in the same place — nobody does that. Every job we did two hour sound checks because we're very concerned about how we sound, wanna do our best and abways give them as much as we can give them.

So he thought we meant let's get the job over with, and thought we were leaving the country with all this money, when actually you go over there and you lose thousands of dollars, and we don't see nothin' anyway.

anyway.

How much do you make?

JOHN: Right now, \$100 a week.

THE PHENOMENON

TWAS EVERY News Editor's dream: a genuine shock-horror week. The Liberal party, already reeling from the serious charges against their former leader against their infer leager Jeremy Thorpe, were further rocked by allegations of sex offences at the National Liberal Club. Both recent Labour and Conservative governments seemed likely to be implicated in

the Rhodesian sanctions-busting scandal. A Bulgarian defector was murdered at the Aldwych with a lethal umbrella. Cases of smallpox, typhoid and lassa fever were making horrifying reading. And in Persia the Shit Of Iran was attending to business with what was, even by his standards, care vigour, massacring thousands of peasants.

With such a cornucopia of sensation to select from, which item did the best-selling national

dailies choose as their lead story last Thursday?

That's right - John Travolta.

In their teports of the scenes outside the Empire at the premiere of Grease, the papers were single-minded: "FIGHT FEVER" (Daily Mirror); "GREASE FEVER" (Daily Expess); "TRAVOLTA FEVER" (The Sun—characteristically bereft of even a modicum of originality; that headline had been used by The Observerin March and Time in April.)

The only one of the tabloids to give preference to politics, the Daily Mail, made up for lost column inches by devoting most of pages two and three to the story. Even The Times deemed it necessary to include a short report ("Women faint for John Travolta").

Although the recent Gasbag correspondent who suggested that the only difference between NME and the Daily Minor was IIp could have made reference to NME is superior journalism as a further distinguishing factor, the accuracy of his observation was clearly demonstrated — the popular press seem to be taking their "pop" coverage ever more seriously.

Certainly the hysterical reaction of the press parallelled that of the 5,000 fans. Describing the occasion as "a root," David Wigg work in the Daily Express, "London has seen nothing like it since Beatlemanea," while a policeman quoted in The San went further. "I have been on duty in the days of Beatlemania and The Rolling Stones — but I've never seen anything like this."

Strange perhaps, considering that Travolta's appeal must be based solely on his Saureday Night Fever performance.
(Although it should be remembered that Beatlemania, on a national scale, was also a spontaneous phenomenon). The Maithad its own explanation: "The film company had organised a massive publicity campaign. This was the sixth international premiere and there have been violent incidents at others."

However, the size of the crowd in Leicester Square cannot be explained simply by hyper-efficient PR, nor even by the fact that no film has ever previously had the benefit of a nine-week chart-topping single as advance publicity.

Travolta clearly has an individual Travolta clearly has an individual charisma which beggast silteral description or analysis, and this has been evident for some time. In its Travolta cover story last March. The Observer Colour Magazine said: "For the past two years he has been a U.S. teenage idol on a scale that is unimaginable in this country." Jane Fonda asked him what it was like to be a real-time. be a real star.

However, although an imported phenomenon, the Travolta mythologising is more deeply-rooted than it might furst appear. He had a small role in Brian De Palma's Carrie, and then appeared in a made, for TV movie, The Boy In The Plastic Bubble (recently shown in the UK), in which he starred opposite a 40-year-old actress, Diana Hyland, who played his mother. Their professional partnership became a private affair, which was cruefly terminated by Diana's death from cancer. After the tragedy, Travolts turned to scientology, and accordingly now neither smokes nor drinks.

While other producers

While other producers vaciliated, wondering whether Travolta's small-screen charisma would transfer to the large one, Robert Stigwood stepped in and signed him to a three-picture deal, of which Saturday Night Fever was the first.

FT IS a measure of Travolta's sudden pre-eminence that he is already attracting his own protest movements.

Manchester hand The Manchester oams the Smirks have organised a pressure group, and held a small demonstration of their own at the Grease premiere. The band began their professional career in Manchester at Rafters, a venue readenesser a teaters, a weaters, and it is because Travolta is considered the most potent symbol of disco's increasing mass populanty that they formed Smirks Against Travolta (shough a secondary

reason was that the band were irked by the fact that they considered themselves better dancers than him).

considered themselves better dancers than him).

Having assembled a posse of London fans, they gathered at the premiere, playing guitars and tambourines and regaling the crowd with Songs like

"You're The One That I Don't Want." The police, already struggling to keep 5,000 baying girls at bay, first shunted the protesters to a position where they were out of sight of the photographers, and of Travolta himself, and then arrested the band's lead guitarist, Simon Milner, later charging him with obstruction. The obvious conclusion would be that this was simply a cheap publicity stant by the band to promote their new album. But they don't have a new album, or even an old one. Apparently, they are that serious about upholding busking traditions and live mussie.

The following day Milner appeared at Bow Street court, and pleaded not guilty on the grounds that 5,000 other. people — who weren't arrested — had been causing a more serious obstruction. The case was adjourned.

ANTI-NAZI LEAGUE CARNIVAL COUNTDOWN

HE SECOND major ANL/RAR Camival Against The Nazis takes

ANL/RAR Carnival
Against The Nazis takes
place in London on Sunday.
Since the Victoria Park Carnival in
the spring, Rock Against Racism have
been involved in setting up 36 local
anti-racist festivals, and they estimate
that around a quarter of a million
people have taken part — proving
that this definitely hazar' theen the
summer of hate.
The site for Carnival 2, as it's
called, is South London's Brockwell
Park, next to Herne Hill British Rail
station or a short bus ride from
Brixton tube station. The organisers
have built a special village for the
event — "a political bazzar," they,
claim, "that will present the views,
culture and food of local community
and campaigning organisatioms."
Music will start at 10 am. with trad
jazz bands, steel bands, and three
sound systems, Crisis, Roots and Kala
Preet to rock the body line.
Sharing the bill are reggae bands
Misty and Aswad (who incidentally
played RAR's first major gig back in
May "77) and Elvis Costello And The

Attractions, whose management company. Riviera Global, at first turned down the gig but later capitulated at Elvis' insistence. Sham 69 were originally booked, but pulled out this week at their own initiative, unwilling to risk their more violent fans spoiling the day. Their replacement is not yet known, but RAR have taken a flier by inviting John Lydon's Public Image. The chances of his appearing must be slim, though.

As before, the whole thing is free. There will also be a march to the carnival with live bands, fire-eaters, escapologists and other floating displays, assembling at Speakers Corner in Hyde Park around mid-day. Amongst the speakers will be energy secretary Tony Benn and miners leader Arthur Scargill.

The purpose of the first carnival was to show a stand of multi-racial solidarity in the face of the NF's heavy candidate count at recent elections.

solution to the sace of the Far Sinear candidate count at recent elections. The NF may have been thrashed at the polls, but that doesn't mean a stand of multi-racial solidarity is no longer worth showing.

But what has New Society got to do with all this? do with all this?

Well, this week's N.S. has, an overview of the UN rock press in its Arts In Society section—and you can tell the state of the others by the fact that writer Simon Frith devotes almost the whole of his two-page feature to N.M.Fin general and an analysis of the meetis of our own and only Julie Burchill in particular.

Foolishly, the editor sent Max out to Egypt to cover The Grateful Dead playing in all their mystical splendour within the very shadow of the Sphinx during a lunar eclipse. And now Max refuses to come back. Well, can you blame him? . . .

Nonetheless, Jerry and me are going to try to bring the lad back to some kind of reality and persuade him to pen his thoughts on the entire transcendental affair. Hold onto your head and reserve your copy, because IF Max ever comes back, you'll only have to be in the same room as his Dead feature to start getting contact flashbacks and sandstorm hallucinations.

John Travolta with teeth? Well, that is one prospect that possibly awales on! Travolta's managers. Bob LeMond and Lois Zetter, have acquired the rights to Anne Rice's truly neary story of a bloodswater's 200-year history entitled Interview With A Vampire. No deaying, Travolta is a ringer for the part, but no official confirmation to date.

The other seven movies ringe widely in scope and approach, from serious big-budget to cheapo strictly-for-laughs. Frank Lagella will recreate his stage role in Dracuta, directed by John Buffann of Satunday Night Feuer tame and co-storing, Ser Laurence Olivier an Van Helsing, the Big Tooth's arch-enemy.

Roger Vadim is working on a "vampire love story" about a modern woman, Catherine

Ou a more serious tevel, German movie man Werner Fleerog is planning a remake of the original silent vampier ciasuic Nosferatus, while Ken Russell is in on the net with a Dracula film based on the original Bram Stotker novel.

STONES HARPIST LOCATED DOWN PARIS SUBWAY

F YOU'RE into reading record credits you may have been pondering on the identity of one "Sugar Blue", who plays harp on two tracks on the latest Stones abum "Some Girls".

Well, if you'd asked any subway rider in Paris he'd have told you.

This last year Sugar Blue has been struttin' his stiff at a rectiser oin.

This last year Sugar Blue has been struttin' his stuff at a prestige gig... down the Odeon station subway.

Blue is black, tall, and was born and raised in New York City. His old buddy Memphis Slim told him he'd find work in Paris. And he did—blowing harp on the street with a French girl (the beautiful Cecile) backing him on guitar Last winter the Sugar Story mode the Herald Tribune and was read by one Frank Zappa. So when Zappa arrived in Paris he went to the Odeon station post haste.

The day after, the harpist was on stage at the Pavillon de Paris, jammin' in front of a 10,000 audience.

That was the first big break.

"Zappa," says Sugar a few months later in a warm voice," that mother has a lotta soul. I felt so close to him on stage, I could feel his heart beating while we wuz playin."

"He gave me lot of room to play, and when we went out, he just asked me: 'How much do you want?' I sure did not know what to tell him!"

A few days later Zappa went back to the USA and Sugar back to Odeon. Then came the Big

Event.
A friend told him the Stones were making a record in Paris, and asked if he wanted to "lay

down some tracks."

Sugar thought the guy was crazy. But just to make sure, he phones the number and ...
"That big woice came, you know." YEAH!" And Isaid: 'Mick? Are ye? Mick! AGGER!! Well, my name is Sugar Blue. I play de blooze, and I'd like to play with you!"

In two hours. Sugar Blue laid "Miss You" with the five Stones at Boulogne. And later on "Some Girls."

Some Girls'

What about that great sound?
"Oh man, they've just got a beautiful amp called the Vox Mesa. Keith twisted the buttons. I played. . Wow! I just had it! Laid it down in one take!"

Later that night, the Stones and Sugar recorded some four or five other tracks, including a very straight blues that Sugar just calls "extraordinary shit".

Did he get paid?

"They gave me 500 doflars, and that was it, thank you very much, goodbye?"

Right now. Sugar Blue has a band together, with Cecile oo bass and two other black musicians. They we been playing Paris clubs, getting outstanding responses with a selection of very taxty blues numbers including some splf penned compositions.

wery tasty blues numbers including some self permed compositions.

Anyway, he wants to stay in Europe.

"Everybody in America's doing disco. You know why? Cause blues and jazz were very much revolutionary music. And record companies don't want to push that stuff, anymore.

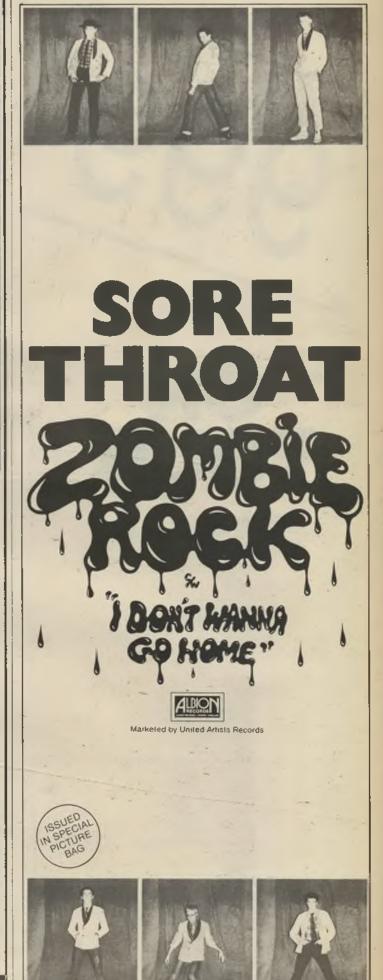

"Everybody sold me: 'Son, you gotta play discoif you want that contract.'

"Everybody told me: 'Son, you gotta play disco if you want that contract."
"I hate disco. I don't like the disco mix of 'Miss You'. They even took off the sax. I wannaplay blues. Lell them my shit is great modern blues! Different. We swing."
We drink our Perrier and talk about how hard it is to get a French blues gottar player ("Badnews, manf. All they know is the English blues rock type of thing!").
Just before returning on stage for a second set, Sugar recounts the third Big Experience.
Jammin' with Woody, maybe?
"No man! I just played with Archie Shepp the other day! He made up a jazzhblues for me and and, 'Blow, man, BLOW!" And I blew all I got!"

Seeing the guy live a few minutes later I'd say
Shepp got a Sot.

Radical cheek? Supermarket chic!

ATE '78, Social Security around £20 and in the age of the £5 album you can't afford the tarpaulin grey pressing of The Nihilistics' "Feel So Biological" on Cant Records? There is a solution.

Just relax and devolve down to your local supermarket where you will see revolving racks with albums like "Des O'Connor Sings Mex Bygraves". Grinn, you say? AT first, maybe — but sife through the dross and you can come eight with the occasional nugget that isn't usually reviewed in these pages.

The following is a selection of sounds your Thrill reporter picked up in York's local supermarket — all by the original artists and all costing around £1.20. (A word of warning: check to make sure it is the original artists and all costing around £1.20. (A word of warning: check to make sure it is the original artist if you're buying from these racks, as many cheap records turn out to be bad cover versions.)
First off 1 tried Woolworths and found a real gem called.
"Summer Cruisin" on K-Tel. For only 89p you can wet your pants again to The Shangri-Las' "Remember Walking In The Sand", or close your eyes, make a broom broom noise with your lips and pretend you're motoring down Sunset Boulevard to "Surf City" by Jan and Dean, "Little G.T.O." by Ronny and the Daytonas, "Pipe Line" by the Chantays, "Palisades Park" by Freddic Cannon, "Daydream Believer" by The Monkees, "Summer in The City" by The Lovin' Spoonful, "The Little Old Lady From Pasadena" by Jan and Dean, "Wipe Out" by The Surfairs, "Sea Cruise" by Frankie Ford, "New Orleans' by Gary U.S. Bonds and nine other cuts of lesser pedigree. Slightly more expensive bustle workwhile, they also had The Beach Boys "Live In London" on the Music For Pleasure label. It contains 12 tracks including "Darkin", "Good Vibrations", "Barbara Ann", "God Only Knows", "Wouldn't It Be Nice", "Do It Again" and "California Girls".

and though not their definitive live recording, at only £1.49 it's a useful addition to any Beach Boys freak's collection. Also on Music for Pleasure they had stuff by Bolan, Status Quo, Ethon John and Joe Cocker. All together now: "That's the Wonder of Woolworths?" I then sauntered off down the High Street to Prestos and rode the alies on a trolley (kinda like a skateboard without control). What did I find? "Solid Gold Soul" on Pickwick.

A oursory glance by any

Pickwick.
A cursory glance by any self-respecting soul bulf would tell him that to collect all the cats on this album individually would set the buyer back a small fortune. For example it contains The Three Caps'

roll. It has eight cuts from Jerry Lee Lewis (Pickwick sure got their priorities right): "Whole Lotte Shakin' Goin' On", "Good Rockin' Tonight", "Great Balls Of Fire", "High School Confidential", "Lewis Boogie", "Breathless", "Pumpin' Piano Rock", and "Milkshake Mademoiselle"; six cuts by Carl Perkins including "Blue Sude Shoes" and "Matchbox". There are contributions from Roy Orbison, Charlie Rich, Conway Twitty, Johnny Cash and Carl Mann, and some lesser known but just as vital tracks such as Bill Justis' "Raunchy" and "Flyin' Saucers Rock and Roll" by Billy Lee Riley, OK, I accept

A Survival Guide For The Penniless Vinyl Collector With A Big Plastic Bag And A Wire Basket.

"Cool Jerk" which I saw change hands for £15 not long ago. Also included is The Ad Libs "Boy From New York City" (recently covered by Darts), the original "Twist and Shout" by the immortal Isley Brothers, "Iko" by The Dixie Caps, "Bitly's Bag" by Bitlly Presson, "It's In His Kiss" by Betty Everett, "Mockingbird" by Charlie and Inez Foxx, "Every Beat of My Heart" — Gladys Knight, "Can't Help Myself" — Donnie Elbert, "So Fine" — Ike and Tina Turner, "Oh No Not My Baby" — Maxine Brown, and one to bring a tear to the eye of the Alb-Nighter crowd: "Long After Tonight Is All Over" by Jimmy Radcliffe. At only £1.20 this album is recommended by ten out of ten housewires — twelve choice cuts and not an ounce of fal or gristle in sight.

Out I go with my plastic hags slung low, on to Tescos — which had a double album, my most expensive buy of the day, entitled "St. Rock And Roll

that hard core Teds (and what other kind is there?) will have most of these numbers already — but it's worth the uninitiated shelling out £2.20 to check out their roots, 'cos whatever they tell you, this is where it's alt comin' from.

My best find of the day came in the Co-op. Nestling between Pat Boone's "Greatest Hits" and "Disco Star Wars" was The Del Vikings's £P "Come Go With Me" on Contour for only 50p. It's a 1966 compilation of original Del Vikings tracks dating back to 1957 with Chuck Jackson taking lead on the title song and "Whispering Bells". It's undiluted doo-wop — forget the camp nostalgia of revivalish bands and go for the real thing. The over-the-top emotional droolings on "Girl Girl" and "Whilette" will make any rock and roll heart quiver. And don't forget. Tolks, this album contains 'sincerity' — an ingredient lacking in many top contains 'sincerity' — an ingredient lacking in many top

The Del Vikings and trading stamps? May this be heaven!

Another good place to check out is the Smiths newstall on railway stations, which often have bargain bins containing Smiths record shops stock that doesn't sold well. Again most of it is rubbish, but I found a Dellonies LP on Bell which is worth the price of £1.49 for "La La Means I Love You" alone. It contains cleven songs: alone. It contains eleven songs all produced by Thom Belt, and a nicer stice of early Philly you can't find anywhere. The Move's "Greatest Hits"

Shallow, imperceptive criticism is, without doubt, a greater danger to a young band's morale than burn instruments, a hostile audience, toser management deals, religion, state beer, bad gear, the clap, right-wing extremists, cash flow problems, crowded cafes, Idi Amin, The Sun, and the setting of capital transitions. and the return of capital punishment

With a quaint old world charm it seems now, that almost belongs to another world, I remember my predecessors would recount with reverence the 'dues' that some John Doe rock star had paid. The paying of dues. Karmic consequence. It used to be a very popular qualification, a convenient back line of detence for self-conscious nouveau stars who were not yet clevated to a position where the slings and arrows couldn't reach. You know the line: "Hey man Foe got a right. For suffered for chrissake. Fix paid my dues."

For what it's worth in 1978 Nick Cash has paid his dues. In and out obands since he was 15, he almost struck pay-dirt despite himself, playing guitar in Kilburn And The High Roads. A desire to concentrate more fully on a song writing partnership he'd been cultivating with former school friend and fellow guitar player Guy Days, coupled with a feeling of general dissatisfaction at the way things appeared to be heading in the Kilburns, gave him reason enough to leave. With a quaint old world charm it

JOHN HAMBLETT dials 999 and shouts instructions

Then, like a two chord riff that won't go away, and which must sound depressingly familiar to hundreds of would-be song-writers came:

1. Hawk your precious songs round the record companies. Offensively polite. Life on the receiving end. Frustration at the inevitably ineffectual strokes you knew you were in no position to pull anyway. Professional disinterest backed up with meaningless applogies.

2. Form your own band. Because that's the only way to get things out in the open.

2. Form your own band. Because that's the only way to get things out in the open.

Thus in the grand old tradition 999 came into being, Ironically the songs in which no record company was sinterested in 1973/76—including. At fast 999 were Nick Cash and Guy Days (a handsome young man in the classical fashion. Relatively quiet. Not aggressively silem, just confident in Cash's ability to handte the situation). Both were guitar players on the look out for a rhythm section. Enter Pablo Labritain. a drummer. Perhaps the most overtly dedicated member of the band, Pablo is as active in the physical side of band promotion as Cash is with the verbal/aesthetic. He's happy to do the leg work, eager to please, body and soul in the here and now.

The qualities they talk of are projected vision. Tenacity, Musical talent — most people now find themselves able to admit that after all it is (batting eye-lids and nervous giggle) still quite important. A sales pitch. A marketable vision of the Modern.

Most of the stock answers could be applied to 999, with varying degrees of accuracy.

999 music is well structured urban

applied to 999, with varying degrees of accuracy, 999 masic is well structured urban rock. Inner-city obviously. Its root sources are diverse enough to make the listening process interesting, but not so opposed as to render it directionless pulp. It's thythmic rather than textural. Its modernisms are adapted only where they can be rather than textural. Its modernisms are adapted only where they can be used constructively. The first album, in presentation at least, conformed to the prevalent musical clibo. The songs were all short and mostly fast. It was not, though, as radical—musically or lyrically—as was confidently expected from young men with short hair cuts and high rise backgrounds to match. Mainly it was

just catchy — this at a time when commercial potential was a commodity most bands were boath to admit to having any of. (Record companies, of course, never let the prime objective slip from them. Obscure is fine boys, radical is simply marry, just so long as it sells. That's all we ask.)

"Our aim has always been to become as good as we possibly can at what we do. Which is not to say musical competence is the most important factor; you can watch a group of musicians on stage, and they might be brilliant, but if the spark's not there ... nothing. That spark has to be there to cause the reaction, and the reaction is the important thing to us. That feeling when you're listening to a band and you know there's something inside you trying to get out. You've got to get up and dance. I mean, there are some records you just can't listen to sitting down. That's what we want.

"As lone as was can now wall."

can I assen to sitting down. That's what we want.

"As long as you can play well enough to put your ideas into practice, that's all you need."

Realising the importance of the vital chemistry is fundamental. The despresses strength to produce next. desperate struggle to produce next year's thing should not be allowed to obscure that fact, as unfortunately it sometimes does with bands trying soooo hard to drag the future

backwards, to merge now with when, creating in the process nothing more than electronic slums. It's the musical equivalent of an architectural folly, only minus the aesthetic commitment. "Our new abour ("Separates") is definitely a progression from the first, rather than a departure, "says Cash, "But that's not to say I know how far we've come. One, two, maybe even three steps forward, I don't know." I listened to the album a couple of times at their publicist's office, obviously too brief an encounter on which to base any constructive

obviously too brief an encounter on which to base any constructive criticism. However, a couple of points did stand out:

a) The band have taken matters into their own hands and become a little more adventurous. Apparently feeling safe enough at home base to explore further affield, they're adopted a left wing approach to what is basically a conservative song structure. Stretching out rather than taking off,
b) The songs are still eatchy. Investigative commercialism. (One point Nick Cash was most anxious that I make was that the band are currently negotiating with Umited

currently negotiating with United Artists in the hope that they'll be able to release a free single with a limited number of albums.)

"Well, that first album ("I'm The One" 1971) was incredibly disciplined, because I hadri I really up to that point written anything that was in time, with strict chord changes — I'd been writing exclusively for the jazz avont-garde musicians.

"When I was doing avant-garde I could make up all the rules. The indportant thing with that is to have a coltinuity, a unity of Teet trut, an aesthetic balance — but you can take as much freedom as you want.

"But now I'm working with forms that already exist, right? You're trying to be imaginative and creative and discover how much freedom you can take with those traditions.

"I want to gradually work with the freedoms that the order that the continuity of the individual can take with those traditions.

A hypnotic, taut-stomach, near-hystorical carnal escalation of sexual tension — so seldom caught, especially by rock music.

"Well, that song is using masturbation as a symbol, to describe man's nature objectively, as a creature, without imposing any personal kind of kilentity on it. "It's the whole thing, uh, what's happened with sexuality today as a result of capitalising on it—in terms of selling, and making money—just as a form of capitalism. Which has destroyed in a sense what it really is all about—cos it's about a way of getting high, right? It's a contact, it's a dual unity. You can't buy it—you're lucky if you can experience it. "It's so much easier to work in terms of your fantasies, instead of with the reality of the real person. So some people get into masturbation to such an extent that they can't relate to another person."

such an extent that they can't relate to another person.
"It's making love like Woody Allen said in Anne Holl: Be careful, y know, because you're talking about making love with someone! I love!

"You can't just have blind faith any more today with the way things are moving. Parents don't stay together, your friends don't stay together, so how are you gonna go into a relationship? You can't say, 'Yeah, this is forever!' but you can't be so disillusioned that you've lost all your faith. 'Too Much la The Skiev' is about changes that are happening. faith 'Too Much In The Skies' is about changes that are happening hetween man and wimen — hecause women are getting much more determined and self-sufficient. Men are becoming much more dreamers, aren lethey?

of their continuous ship ...
"As the roles are changing now it's very difficult for a man — because of his nature, to dominate. Because he know the is strong in ways that women are not, and he wants to feel this supremacy in a sexual kind of way. Even if it does not manifest use in other ways, at least in a sexual bind, or ways, at least in a sexual.

"He's got to come to an understanding that he's got to allow

the woman that freedom — and although men will say to you over and over ugain. I want you to be free to create, they have this anxiety y'see, because if there's something that you're doing that they can't do, or you're doing the same thing and they're competing with you. "Never had so one in sur' Yealt You're right! You're heautiful and free It gets me high to see you'fly."

AVE YOU received much encouragement?

"I've never been encouraged. I find the reverse. What happens is—if a man wants you he won't encourage you trust and any steps that II take you in another direction, and it happens that way with women—too, they won't encourage a man to manifest his dream 'cos they're affaid that, y know, he II leave her behind.
"If you wann a do something and

"If you wants do something and you feel highly motivated, a woman that's devoted to you exclusively becomes a fability; because every time she does something for you'd involves attention.

You want a relationship where you're gonna driwn each other in your love for each other and you can't survive in the world because you've got your arms wrapped uround one another like a story from Platu's

another like a story from Platu's symposium.

That song ('My Mama Never Taught Me How To Cook') is saving, ylanow, that a woman's destiny is to create! At this point in time she can't make 11 and 12 babies — she's gotta find alternative ways to create. It's in her nature, just like it's in a man's nature to be a certain kinda way.

"So if the torns to doing something, to art or muse, a man should not interfere with that because he is stifling fler very nature, which she cannot come to terms with."

"I mean it's ideal if you're with somebody that you wanna be with then you get a real balance in your life, and from that, from that kinda strength of two people heing together, those two opposities, you can create envelting: — that's a strength, that's not a weakness, It's just a question of being with the right person."

Dylan, Melanie, Spector, Mike Harding around in a bowl and Harding around in a bowl and almost spewing up. The A-Side uses The Only Ones' Peter Perret on guitar and the Hot Rods' Paul Gray on Bass, the stuggish and disturbed B-Side "Hurting" uses Phil Lynnot on bass. You're meant to respond secondingly. Snauds will probably find it 'valid' but they've yet to lose their virginity.

PARANOIAS: Heads Down Minddess Boogie (Logo). Sadly uninspired, insipid parody of The Barron Knights, still living in the past. Title track heavy metal. B-side pink, C-side punk (a replay of the pink side only with Fuck instead of Thank). D-side a berdum dee dee interview between "Bob Harris" and "Roddy Liewelyn". ROLLING STONES: Respectable (Rolling Stones Records). The Stones. rock in roll academics. They don't mean nothing, shouldn't but God will they ever be allowed to rest. It's O K, to eleverly mimic, find new roles, project them, perpetuate the hooks, myths and meaning, but no-one under 24 wants to hang on to what they're meant to represent. It's bad enough that we must settlife about under the dark cloud of ponderous importance and influence.

The Stones do deserve something. They deserve to be happy that they are the equivalent in the '8tis of Chuck Berry in the '70s. Washed out, dead beat, with fond memorics. But mash, helped by an elderly, scared media hanging o-o-on, they're there and it looks like they shows with the 1/4 agree with there and it looks like they always will be. I'd agree with Justin Hayward that "Respectable" is matter-of-factly autohiographical, but that's a cheap way out and falls in line with the universal modes of thought about reason, rebellion and aah-reputation All it is an impassioned commercial rock number, Boomtown Rats without the boom, pace or fun.

SORE THROAT: Zomble Rock (Albien). Yet another production by Martin Rushent, whose best work remains his whose best work remains his aiding of mid-period Shirley Bassey. Sore Throat are one of those moderately anarchistic mildy theatrical club cumbos, with bonourable musical regurgitation skill, a passion for 'humour' and genile 'parody' — like Gaffa or the Real Ones (The Fabulous Poodles), who all share an adulation for the late 50's structures. This number is exactly as the title would exactly as the title would indicate, and that's very dult. You won't remember it from "Revolver", but I do cos my budgie hung itself while it was on. My budgie hated the '50s. And the 60's. As for the '70s.

Mister DAVE 'Are You Sure Chuck Played It That Way?' EDMUNDS, the celebrated Welsh lickologist, persevered and learned those classic solos note for note. So how come the guys who played the originals have FORGOTTEN?? When you have to teach Carl Perkins to play "Blue Suede Shoes," well, it's enough to break a poor boy's heart. And as for that asshole Chuck Berry . . .

T'S THE raw fabric from which dreams are woven.

Happened, it did, the last time Carl Perkins was in this country. He was booked for a videotaping at the Nashville for use on Melvyn Bragg's South Bank Show on London Weekend TV and the guy from Jet Records — to whom the renowned Mr. P. is signed these days — thought it would be a kick to phone up mild-mannered guitarist Dave Edmunds to put a band together

After all, this was a job for

After all, this was a job for Superfan. So Edmunds assembles the band, and he gets his old mate Tommy Riley (fine drummer and original member of Love Sculpture, last heard of with Meaphis Bend) in on the deal, 'cause Tommy is so hip to old Sun records and Perkins' records in particular that he's even memorised the mistakes, which makes him the ideal man for the iob.

the job.
"He's really a lovely man, Perkins "He steally a lovely man, Perkins is, very courteous and Southern." relates Edmunds over a massive summy-affermon flagon of cider, "and he says, "We'll do 'Blue Suede Shoes'."

"So he goes. Well it's a-one for the money bam! two for the show, and we and Tommy, who were raised on Sun Records, look at each other.

on Sun Records, look at each other, and I say 'Errh' ... excuse me hang on ... Carl, you remember on the original version you did it was "One for the money ham ham (pause) ... two for the show"?

"He gives me a puzzled look and I said, 'Yeah, you did, honest!' He said, 'Oh, it was a mistake.' Christ.
Ten million hands have copied that mistake. 'Still,' says Carl, 'we'll give it a go.'

(pause) two for the show. "And then it suddenly hit me. God, I'm telling Carl Perkins how to sing Blue Suede Shoes". "

AVE EDMUNDS knows how to make rock and roll records. He can make all sorts of rock and roll records. Sun rockabilty. Phil Spector symphomania, Beach Boys. Everly Brothers, Chuck Berry. Chamtells doowop, Ry Cooder folktoreik, anything.

He can make them by himself, layering vocals and instruments one-on-one-on-one, lovingly, obsessively building up logically until bey prestol. In he's produced "Baby I Love You" or something absolutely perfectly.

While he's doing it, he'll be nanipulating the studie board, placing the mikes just right, recreating exactly the Chess studie in which Chuck Berry cut "The Promised Land" or Sam Phillips' bunker in downtown Memphis where the young Presley laid down "My Baby Left Me."

His vocal time."

His vocal time. This vocal time the sings just like Presley or Berry or both Everlys or Cart Perkins

Alternatively, he can round up mates like Nick Lowe, Billy Bremmer, Terry Williams, Steve Goulding, Paul Riley, Billy Rankin or Tommy Riley, and relving instinctively on their

musical intelligence and skill he can turn them into whatever band he wants to bear. And whenever he gets it on, either on his own or with his superlative Rockpile or with other frends. Dave Edmunds can make records that sound just like records.

Edmunds can make records that sound just like . . . records.

It's an odd craft, and a disturbing one, since none of Edmunds' home-made records bear more than the laintest traces of their origin. None of them are fussy or sterile, cold or academic.

The weird, scarey thing about Edmunds' work in this vein is that

The weird, searey ming about Edmunds' work in this vein is that they all sound like a band . . . or even an orchestra. They all work. "Subite As A Flying Mallet", the so album recently reissued by RCA, is

as a rock musician as well as as a rock musician as well as singlehandedly creating the original music for the sound-track) and through that I'd got to meet Pete, and played acoustic guitar on a track from "The Who By Numbers". I don't know which one it was, because there

"I wouldn't recognise the track if I heard it. It was just a bunch of chords No-one knew it except Pete, and he was just teaching it to all the others.
"I'd just had 'Subtle As A Flying

Which is why Edmunds is recording with a band now, eschewing covers in favour of original material and—under the stimulus received from working alongside Nick Lowe—is writing more himself, both in collaboration with Lows himself and collaboration with Lowe himself and with others; creating as opposed to

with others: creating as opposed to recreating.

He is continually amazed by Nick Lowe's knack of spur-of-the-moment songwriting, of seeing softeething out of a bus window or something, jotting down a couple of lines on the back of a fag packet and turning the whode lot into a song in less time then it would take Bob Dylan to change his guitar strings.

strings.

A new skill to master, a new trick to learn. Superfan won't rest until he can

one of the spookiest things in all of rock and roll, and this spookiness is — if anything — compounded by the total unspookiness of Dave Edmunds

himself.
He's wandering down the road now, strolling through the afternoon sunlight somewhere in Maida Vale clutching a couple of bottles of cider He's just got back from holiday in He's just got back from holiday in Hawaii and in his blue jeans and green T-shirt be's lean and tanned: a much healthier specimen than the studio-pale, faintly tubby drunk occasionally on view at Dingwalts. He's smiling and alert and amiable, and I realise that this is the furst time I've ever met Edmunds when we've hoth been solver.

He's a friendly man. Welshman of

He's a friendly man, Welshman of sorts, somewhere in his '30s.
Listening to his records, you'd expect a being with the hubris to challenge the gods; meeting him, you're struck by his devastating normaley. I once met a kung fu man who studied under the same sensei as Bruce Lee for 13 years; unless you saw him do his stuff you wouldn't look at him twice in the street, guarantee it.

Edmunds is the same: the quiet, unassertive ease of a man who knows his own skills and isn't impressed Pete Townshend knows Edmunds'

Pete Townshend knows Edmunds skills; but in characteristic Townshendian manner, he fingered the Welsh wizard's dilemma with unerring accuracy. Says Edmunds: "I got to know Kell Moon when we were filming Standars (the David Essex movie in which Edmunds played a minor role

Just like that? "Yeah, it was just like that. It octainly wasn't by design. He just sat there and listened to the whole lot and then he said. 'Yeah, very interesting. You know what you're doing? You're just calcabetion you risk.

You know what you're doing? You're just celebrating your influences and not getting involved with it or including yourself in it."

"Fm just a fan. I've always felt more like a fan han a musician. And I thought he was right. He put it very well, It was just a celebration. I was doing 'Let li Be Me' and sounding just like the Everly Brothers—or certainly very close—and 'Da Doo Ron Ron' and 'Baby I Love You' and 'Leave My Woman Alone' and it did sound incredibly close to the onginals.
"Pete said, 'It's a very nice exercise"

sound incredibly close to the originals.

"Pete said, 'It's a very nice exercise and you guiled it off very well, but you're still not including yourself in the whole thing.' Which is now what I'm trying to do with this new album. The influences are still there, but they're new songs."

For all its accuracy, Townshend's criticism of pre-"Get It" Edmunds was not wholly unique. One particularly cogent criticism of "Subtle" upon its original release was made by none other than NME neo-editor Neil Spencer, who pronounced the album great listening for "30-year-old retired teenages."

"Usually the criticism I've had has been paetty accurate. Ninety-eight per cent of the time it've gone along with it myself."

"I've been asked to produce him, but if he has the same attitude to making records that he has towards live appearances then I just don't want to know. But if he was into doing new songs that sound like the Chess stuff. I'd get Memphis Bend: Tommy Riley, Geraint Watkins apparently, he's got some new stuff and he's just signing to Capitol. It would be great if he's up for really working on it, but "He's such an asshole. "When Rupert Perry (of Capitol) was asking me to do it, he was

advising me not to at the same time. I don't want to do it if it's going to be duff just because it's Chuck Berry.
"I mean great! He's the poet, he made all those marvellous incredible, ridiculous records that influence everyone, but that doesn't give him license or permission to be a complete arsehole and have everyone falling over themselves to produce him."

Well, maybe he figures that it's his music and his songs and he can play 'em how he wants to.
Edmunds laughs. "Well, let 'im but I'm not going to be involved. Stiff, it's a shame, it's tragic..."

THERE ARE very few modern rockers able to take the music of the '50s and place it firmly in context with the '70s without compromising either way. The Pirates can do it. George Thorogood can do it and you can bet your leather jacket that Dave Edmunds can do it. How does it feel?

'I think the nitty-gritty, the spirit of rock and roll is timeless; it's only the styles that go in and out of fashion. The productions of some of those records, the spirit that's there on the classic 'Whole Lotte Shakin' 's and what-have-you's. ... that spirit is just immaculate. It'll never die.

"But I was never a Teddy Boy," he grins. 'I was too young. I was about 12 or 13 when all that started, and I soaked up all that nusic, that's all. I retained it along with things that.

grins. "I was 100 young, I was about 12 or 13 when all that started, and I soaked up all that music, that's all. I retained it, along with things that happened along the way."

What was the first tune you learned to play properly?
"I haven't yet."

Okay, so what was the first ose you mahaged to fool other people into thinking that you could play properly?
"Oh. I was The Kiddy in Cardiff because I could play the solo on Buddy Holly's 'li's So Easy', note-for-note without a single burn note. I wonder if I still caw. Then I got onto Chet Atkins and got to learn all his stuff, finger-style, playing two tunes at the same time. That was a good show-stopping party-piece."
So what did you think of the '60s? "I resented it a bit when The Beatles came in doing all that. I was in a band called The Raiders, doing all American stuff, and when all those Messey groups came in doing all that stuff like 'Some Other Guy' and I had all the original percents but the Et was the tree the sund that a stuff like 'Some Other Guy' and I had all the original percents but the Et was the tree that the first own the tree that but the Et was the stuff like 'Some Other Guy' and I had all the original percents but the I was the

Mersey groups came in doing all that stuff like 'Some Other Guy' and I had all the original records, but then I was won over by The Beatles like

won over by The Beatles like everyone else."
Edmunds was less impressed by The Rolling Stones, however.
"I think they're over-raied. They've done a few classic singles—'Honky Tonk Woman' and 'Brown Sugar' were great, but I think I'm a better Chock Berry-style guidarist than Keith Richard is."
Again, it's typical of the Edmunds perspective that he should assess the Stones purely on their ability to reproduce Berry's sound.

Stones purely on their ability to reproduce Berry's sound. But then than's Superian talking: from demanding to hear it "just like that record" it's a mere short step to playing everything "just like the record" and then making a record "just like the record." Edmunds wants to be able to play every lick he's ever grooved on "just like the record."

record."
"I think the biggest mystery in rock and roll guitar playing is the beginning of the second solo on Presley's "Hound Dog" and it's well known among guitarists who are interested in that era. It's a chord or something, and Scotty Moore just goes

whatam-bam, and in an interview someone asked him what he did and he couldn't remember.
"Not even Scotty Moore knows." It's just the spirit of it. That's why I want to be able to do all those things that they've forgotten..."

OWADAYS, EDMUNDS treads a path that is trickier, but mode re warding, "Fracks On Wax", while superficially less instantly attractive than "Get It" (on which he blended his expertuse with the old into his grapplings with the new), is the work of a creative sock and roll muscane rather than the world's most resourceful two-legged jukebox. jukebox.

Jukebox.

Though not entirely unflawed (the inclusion of "Heart Of The City"— an Edmunds mix of the same
Rockpile performance of the Basher authern with Dave's lead vocal overdubbed in place of Nick's— was a short-cut scam instigated by the evil Jake Riviera, and "Thread Your Needle" lacks lustre), it undoubtedly goes a long way towards answering the perenual criticism that despite Superlan's awesome superpowers he has nothing of his own to say.

By applying his massive skults to new songs. Edmunds is taking his place in the modern world: one foot in the '50s and the other in the '70s.

However he finds little to knock him out in the music of the last few years—he's never listened to much of Bowie or much New Wave, and the most impressive bands he's seen of late have been Cheap Trick and The Duice Dregs—curious as the latter choice may seem.

On the basis of the 'Phie's last trace of gigs—Knebworth and Hemel Hempstead Pavillon the following day—they would seem to be cooking on all burners, despite a live sound at the latter gig that, one regrets to say, did not come on "just like the record".

The playing and singing was as great as a tever is; however, Edmunds' stage presence is peculiarly introverted and state despite the clean-machine dynaflow picking emanating from his 1969 Gibson 335. One's eyes are continually drawn to the lucching, outgoing, thumbs-up figure of Nick Lowe over on the end, even when it's the stocky blond Edmunds in the middle who's punching out the explosive pickin' and singin'.

Except for once.

Superlan's deing his specialty version of Chuckleberry's "Promised Land", see, and be moves into the sook, head down, half-crouched, totally lost in his guitar and the music, one arm flaying the guitar, like ninging a bell only better.

oblivious Completely oblivious, and at the same time communicating the remaining as well as he does in the studio, making records that sound "itsi like the record."

OU CAN talk all kinds of trash OU CAN talk all kinds of trash about Dave Edmunds, go on about "limitations" and "very-nice-but-so-what?" and "lack-of-true-creativity-and-originality' and all other kinds of hullshit business, but you won't find me business.

buying Dave Edmunds is one of a kind, his Dave Edmunds is one of a kind, his fannish enthusiasen is so overwhelmingly infectious, and his aim is true. If "Tracks On War" is any kind of real pointer to his future, then he's no longer goins be the world's greatest pasticheur, but an inhentor who's going to use every ounce of his legacy to invest in the future. future

Meanwhile, Chas had been enjoying a teste of the big time — well, a slightly larger time — as bassist with The Outlaws, a group who achieved a fair old reputation with rocking instrumentals ("Swingin" Low", "Valley Of The Sioux", "Ku-Pow!") and as backing band for Mike Berry ("Tribute To Buddy Hofty") but is now probably best remembered for including one Ritchie Blackmore, guitarist and nutter of this parish.

"Our first break, I suppose you can call it that, was passing an audition for Butbins; we played at Filey for three months. When we got back the band split up, but this felfa who was managing Mike Berry had seen us down 'The King's Head and he come back and said, 'I got this singer who needs a backing band; d'ya fancy getting the boys back together and coming along to see Joe Micek?' We went down and Joe likes us and he called us The Outlaws and that's how we that started.

"The first thing we recorded was a cover version of The Shirelles' 'Will You Love Me Tomorrow?' with Mike

No more hits (except on Berry's Buddy Holly tribute) but they did get the chance to play around Europe, including the obligatory gigs in Hamburg, and tour Britain on package shows with the likes of Brenda Lee, Gene Vincent and Jerry Lee Lewis — with whom Chas achieved an adolescent ambition by backing The Killer with The Ouslaws May 1963 and touring with him again in November '66 as bassast with Cliff Bennett And The Rebet Rousers.

He was also co-bassist. sometime-pianist / backing singer on Jerry's album "The Session",

To cut two, long, involved careers down to one inadequate summary: in 1966 The Outlaws disintegrated and 1966 The Outlaws disintegrated and within a month Chas was auditioned and accepted as bassist for The Rebel Rousers (first with Cliff Bennett; later Roy Young) who also included thrummer Mickey Burn; meanwhile Dave switched from soul to country and joined The Tumbleweeds. When Black Claw was starved into submission, Chast teamed with Albert and others in the much-praised but commercially unsuccessful Head, Hands And Feet (three albums; a tour of The States; disintegration) while Mick retired to set up a plumbing business ("Which be's still got going; be's richer than us now") and Dave went back to The Tumbleweeds before joining The Mick Greenwood Band, with whom he also toured America.

Dave knew a few people on the publicircuit by then so we just started gigging as a duo, and I rang up Steve Rowland. . I knew him 'cause he produced the Jerry Lee Lewis London session . . . to see if he liked our stuff. "At that time we were just seeing what came out of our heads. A lot of it was sorte country but we started putting in some Cockney stuff. "The first ones that really worked was 'One Find And Another' and 'Lazy Cow.' The LP has since become something of a collectors' item and will probably soon be re-issued by EMI, but at the time of release it was poorly promoted and largely ignored. Like when, with Mick back on drums, they toured with 10ce:

Chas: "We'd get to the theatres and they'd have all the posters up and a general selling records, so we thought everything was going alright. Then on the last day of the tour he says, "I'll tell ya what'd be a good idea. Give us some of your records to sell as well." Turned out be'd only been selling 10ce's stuff."

Trouble was, EMI — with whom they signed when Retreat folded — didn't seem to know what to do with these two

NOT ONLY is it the word', Grease is the registered trademark, Grease is the RSO machine, Grease is the hype, is the hype that's

been swiped, Ira la, And it sucks, right? Wrong.

Admittedly, it never approaches the wit or perception of that other '50s montage monster American Graffid — it has no aspirations in that direction anyway — but it sure beats the crap out of the mechanised dross of Happy Days (not difficult) and as an adaptation of a successful stage musical it works surprisingly well, and often. well, and often.

Surprisingly, because ninety

And still more surprisingly, because the dire opening ten minutes erromeously intimate that Grease is going to be a huge gift-wrapped dud on the scale of Richard Nixon's cheque to the inland Revenue, But just as Tricky Dicky adroitly

Between The Lines

Directed by Joan Micklin Silver Starring John Heard, Lindsay Crouse and Jeff Goldblum

(Essential Cinema) **EVER WONDERED** what life was really like at NME? Well, you won't get all the answers from Between The Lines, but certainly some of them are there. Two characters I

recognised quite clearly — the paper's rock journalist, who's a complete sponge, and its advertising manager, prim, proper and paranoid.

paranoid.

The film concerns the twilight times of an erstwhile underground paper in Boston, the Back Bay Maintine, and is set in 1973 — after the radical explosion of the late '60s had waned, and before Woodward and Bernstein had given every journalist an ounce of justification for thinking he was going to change the world. It seems that the paper's original radical stance has been somewhat diluted, so that it is

original radical stance has been somewhat diluted, so that it is now virtually an institutionalised part of the city's media — so much so that it is on the point of being swallowed up by a small-scale Rupert Murdoch.

However, Between The Lines avoids portentous issues, and concentrates on the everyday activities of the paper's staff, a closely-knit group who make little distinction between their working and social lives; even the office boy (Michael J. Pollard — the years since Bonnie And Clyde have been lean for him) steeps beneath the office pinball machine. Because the characters are so credible, and because it has a warm sense of humour, and a lively atmosphere, the film is improper to the proposed of the property of th

so credible, and because it has a warm sense of humour, and a lively atmosphere, the film is immensely enjoyable. There's even an added bonus as some of the action takes place at a promo party for the best rock band of the '70s (Southside Johnny and the Asbury Jukes, but you knew that) and, though the footage of the band on stage is disappointing, the music isn't; the soundirack also includes a song from Graham Parker and the Rumour. But Between The Linesis less than it might have been, and less, I think, than Micklin Silver intended it to be. The core of the narrative — the takeover battle for the paper and the way in which those on the outside of society learn to

live on the inside — is tackled nee on the inside — is cacked neether in any depth nor with any freshness of approach, and a kind of demantic sub-plot, which concerns the old chestnut of corruption in the music industry, merely seems to have been added to provide some gratifions violence.

However, such shortcomings should not be emphasized.

What should be is that the film is thoroughly enterraining, and contains much acute observation of members of my particular separation. particular acperation

DESPITE ITS title and the presence of Sylvester

Federation of Interstate Truckers, and the plot—based loosely on a bad novel by Joe Rolling Stone Externas—tells how poor boy Johnny Kovak (Stallone) becomes a union organiser during the Depression, gets involved with the Matin, muscles his way up to be boss and is finally blown away before he can spill any beams to the Senate committee that's investigating his underworld connections.

It's one of those films that earnestly tries to kid you it's about Real Life (issues like poverty and corruption looming large), but really it's an oldringe Hollywood neel-oframa, stuffed full of simplistic mornality and large doses of sentiment. Even the plot is implausible— a couple of incident-pucked months on either end of a twenty-year gap during which

DERRINGER If I Weren't So Romantic, I'd Shoot You (Blue Sky)

IT IS not the reaction to sexist rock which is hysterical — it's the stuff itself. Most men in rock have an incredible, almost megalomanic notion that the mingy bit of scrag-end dangling down their inside leg is a GUN-which shoots SILVER BULLETS. Realty!!!

I have yet to come across a woman who has such a hysterical or retarded picture of herself, no matter how anti-sexist or self-righteous she may be But most men are bionic in their own tiny minds, be they reactionaries. osexuals or radicals.

EVERYONE these days is EVERYONE these days is sneering at "hysterical feminism", but the hysteria with which sexist rock is received in intelligent quarters is not even the smallest fraction of the male hysteria (however cool or controlled it seems) that goes into making the offending article. Sexism, along with fascism, is the end product of a scarced, repressed, old-mannish (gay bachelorish?) mind.

in a big way.

He is not the biggest (tee hee) offender, but because of his desperation to be a household rock name, he's the most blatant utiliser of the pistol-power myth (McLaren was another one with guns on his mind) in a long time. Both sides of the album sleeve depict a rifler range target, glaring red and white. On the front there's a backdrop to a small smoking revolver bearing the name "Derringer" (of course) and on the back the 'dtop is wrecked, shot to pieces. The gun is gune.

This sort of thing comprised the backbone of 99% of white male rock before 1977, and still plays a massive part in the

Oh look, I'm getting all hysterical again I'm getting all hystorical again — not like that cool Rick! His first words are "It ain's funny but it sure is fun! I'll pull the trigger of the Devil's gun! Too bad you been had but it sure is fun!

His voice is steeped in frail All American bully boy vacancy, be it singing dire Warren Zevon's dire "Lawyers, Guns And Money" or blating the Bernie Taupin / Alice Cooper title track. Basically, it's all gun music, but at the volume of a Saturday Night Special — those dinky little miniature pistols scared American women are wont to put on their shopping list. It's very lightweight beavy rock, bearable if only Derringer wasn't so worried. Last chance rock?

The best bit I've saved turn last — a song called "Skeepless", the result of putting lyries by American fad Patti Smith to music by ex-one-night-stand Derringer (God, 1 bet they had fun, her with her interest in soldiers and him with his interest in gunst!). album is trying to live up to its name. In fact, that's my favourite side — the sweet

cliche-ridden, dispensable, soullers, vacuous and dult. The title instrumental "Journey To Addis", is an adaptation of Don county pop of the hit "Jackie Blue" gives way to two tracks of mildly exhilarating Draumood's "Addis Ababa", and is supposedly the highlight of the album. It most certainly is not, since it merely drones ag in pseudo-crossover juzz bioo, ultimately inhuriating

fashion, ultimately infuriating in its empty, directionless self-importance.

Is fact I'd say this record to no use to myone, not even those who bought the single—unless of course they want a whole alloun of the stuff which, even using that lower common denominator, this record doesn't deliver.

At least half of the fourth Cimarous album gives Third World some real competition. But thankfully live out of the cus songs are decent, thus

World some real competition. But thankfully five out of the ten songs are decent, thus saving it from outright disaster or dismissud. In the wake of their second album "On The Rock", a special bleud of original regges, I expected the Cimus to deliver more. To some extent they have, with songs like "Civilisation", "The Word", "Give Thanks And Pruise" and especially "Wiltin" and the curvent single "Mother Earth".

Undortmastely, the overall impact is raised by the inclusion of less worthy songs like "Natry Time" and "Traly". All the five good tracks have memorable tunes, featuring the strong voice of Winston Reid who also wrote "The Word" or Carl Levy' deeper growt as on the militant "Willin". The best song is the extremely underrated "Mother Earth", which makes tall yet sobte use of duth effects to great advantage.

An albuta for fans only, since the band have still—after all these years — to combine their potentially strong ideas. But in the words of "Goosenin" Out", "Ain't no use to sit there and only criticise, no bother criticise, leggo-criticise."

Personally, I have my doubts. I'm sure that everyone with the possible exception of black vinyl fetishists will see "Rough Diamond" for the inconsequential trash that it is. It purports to be white disco, but the only thing that redeems the record are the taut orchestrations for which Thor Baldurson admits responsibility. He's done a good job in terms of technical competence, but soul Swedish-style is really no soul at all. In the midst of all his concoctions, Madleen whispers and whimpers somewhere between Jane Birkin and an asthmatic Marlene Dictrich. Personally, I have my

MIXED FEELINGS about the

C&W is still her roots music, and the ghost of pedal steel haunts a lot of this album indeed, it's on those tracks that Dolly Parton's class and authority shine through most clearly. Tracks like "Nickels And Dimen", a typical Parton song of childhood, and the sliw, almost regretful "It's Too Late To Love Me Now". These two, together with the title track, a strong pop ballad on which Dolly sounds a little like Maria Muldaur, and the raunchy "Sure Thing", are the albom's successes. indeed, it's on those tracks that

feeling that Dolly has become a victim of her aspirations. She flicts with C&W, pop. funk and disco, then throws in a cuuple of MOR tracks, including a dreadful duet with some guy who sounds like he's singing through clenched teeth. Plus, the omnipresent

horn and string arrangements just clutter things up, and detract from her singing. That sleeve bothers me, too. Not just the asinine picture, but the credits go through the whole bother seems of listing. but the credits go through the whole boring scene of listing countless nonentities for numerous obscuce functions, right down to "vocal coaching staff", would you believe? An attempt at spurious respectability? I dunno, but I think Dolly Parton is in danger of setting lost in her work. of getting lost in her own diversity.

The recent festival I put on here was an attempt to show all kinds of different approaches to that kind of problem. It was an intenge week. What happened was sometimes terrible and sometimes really fantastic. What I found was the proportion of moments where those roles broke down was pretty high in comparison with the barrenness of the last ten years of 50. frequencies and directionality

"One particular event I found exciting. This was a loose project devised by Michael Parsons which grew fantastically, expanding in all directions until it involved alloyed expending the solution of the project of the solution almost everybody in the festival. "First of all it was just listening to the sounds along the canal, then making small events related to those sounds. It started off with scrubbing off all the sick graffiti on the bridge, and using euphoniums in one area which is good for echoes. The audience was completely transient, just echoes. The audience was completely transient, just people walking along the canal, people watching or not watching, performing or not watching, with time and you really felt the roles were being reconstructed. "Lol Coxhill did a hing which was fantastic, He looked completely psychopathic actually — he had this short black raincoat on, black boots and trousers and his little dark gasses. He had a tape of this gorilla on a cassette in his

Most people the desperately to ignore what was going on, but one bloke coming home from work stopped and tried to find the source of the sound. Eventually, he got into conversation with Loi, and it turned out that his thing was to sing along with mains hum. He reckoned the Electricity Boardshould should though the frequency of pocket and he was sooting should change the frequency of electricity.

UR LAUGHTER batted around the poster-hung walls of the ante-chamber.
"I did hear" gasped David, "that Led goes into public toilets with this gordla tape, goes into a booth and then excludes it to "

Coincidentally enough, I ran into Lol Coshill at Ronnie Scott's the following night, taxed him anent the tape, and was asked whether a trip to the crapper seemed imminent. It did not, I do not want that performance space re-defined.

"I liked all of the outdoor events," David continued "We went and did a "We went and did a performance of whited music, just using whited dinstruments, on Primrose Hill at about two in the morning. It was like a dream. The audience was just a few people coming home pisced tate at might, and suddenly comine across this

Didn't this smack of putting on the bourgeoisie? If one jangled the average punter into a state of flux, wasn't one then responsible for his future development?

I'm not into disturbing people in that sense, but there is this British thing where you don't ever confront anyone. I don't think you can be too polite about what you're doing either—you know, not to be noticed.

"I've been involved in this organisation called the Artist Placement Group for about seven years, which is specifically to put artists in an organizational structure on the same professional basis as everybody else, and give them the freedom to work." "My unjust in that area was

"In a Western consumer society, based in Science — the New Priesthood — we have an object-based cosmology, an object-based epistemology and an object-based language which makes materialism and which makes materialism and which makes materialism and the relationship of observer and observed completely insoluble — unless you change the basis of language itself. STRANGLERS PLAY IT SMALL 'N' ORDERLY

The Stranglers BATTERSEA PARK,

LONDON THE STRANGLERS much-publicised battle with The Greater London Council came to an eventual compromise in Saturday's garden party, at which a surprisingly small and orderly crowd was to be found pegged out on the tarmac sunning themselves in the Costa Brava climate.

The four-quid entrance fee would have seemed justifiable if The Edge hadn't been the only contenders out of five support acts to show any semblance of talent, drive and real imagination. First on, with the midday shift, they featured two

All of it was eminently live music, especially "Winning Streak", a number about greyhound racing that bears uncanny resemblance to Little Feat's "Day At The Dog Races". Next up were Scotlish four-piece The Skids, who weren't helped by their love of ham-fisted rhythm changes, and a bass/drum backing that carried none of the real weight they needed to get across. Peter Gobriel's talents as a performer/entertainer, or even

performer/entertainer, or even songwriter. I still fail to songwriter. I still fail to recognise. He and his band, most of whom look like Mafia hit-men, clambered up a ladder onto the stage in their day-glo road worker jackets, and launched into a set of little consistency and, apart from the more melodic "Flotsam And Jetsam" and "Solisbury Hill", even less musical strength.

It all diffused in too many directions, and was grievously damaged by his eighth-rate punk version of 'A Whiter Shade of Pale''.

As crowd reaction could only be swayed by his sorties out front with a radio mike, it couldn't be called an event by any standards.

couldn't be called an event by any standards.

The stage was cleared for Johanny Rubbish, who risked body and soul, and his stringless guitar for a rendition of his McCarlney-based anthem "Mud On My Tyre". I don't rate him much as a comedian, but as a decover. comedian, but as a decoy to draw the flak from

draw the flak from can-wielding cropheads, Rubbish could well become a permanent festival fixture. After having to ditch their plans for dropping in with jet-packs strapped to their backs. The Strangfers decided instead to hire a Sherman tank to add a little weight to the proceedings, which made a few-noises in Gabriel's set and then set around looking sadly redundant. The feared foursome have always struck me as a band who can only give back as good

massive turn-out, they seem to have slightly overrated. Not

have slightly overrated. Not only was the volume distractingly low but their instrumental approach was so systematic as to preclude any variation of pace. They just stayed cranked up to a safe crussing speed, without accelerating towards a climax. In fact the nearest thing to a climax for the macho-men up-front was the "Nice "N' Sleazy" strip show, during which five sin-soaked nubiles tried for that "all-over tan", with the aid of some slave-driving berks with whips. Another indication that the band's sense of proportion band's sense of proportion seems to be on a downhill

"Peaches" and "Hanging Around" are still "Hanging Around" are still strong runners from the early days, and of the "Black And White" collection, "Death And Night And Blood (Yukio)" and "Toiler On The Sea", with Cornwell and Burnel belting out the vocals with the same unnerving attack carried them over attack, carried them over

attack, carried frem over patches of more dischordant blitz like "Do You Wanna". Seeing that the stage was stacked with brick wall backdrops, and crawling with graffiti, I don't doubt The-Stranglers would agree that they're better suited that they're better suited to conditions of urban grime than sunny afternoons in Battersea Park Mark Ellen Mark Ellen

PALMER PLAYS IT SMOOTH'N' **SEDUCTIVE**

Robert Palmer

HAMMERSMITH ODEON ROBERT PALMER is a man unrivalled in the art of musical seduction.

There's some truth in the doubts about his ability to translate onto disc, But his reputation live is deserved. He chooses his musical surrounds with great authority and the chooses his musical surrounds.

reconoses his musical surrounds with great authority — currently fouring with an excellent five-piece, consisting of Jose Galdo (drums), Pierre Brock (bass), Steve Robbins and Jack Waldman (keyboards), and Kenny Muzor (fead and steel guitar). The magic of the songs is mostly rhythmic, hence some reservations about the wisdom of all-seater Hammersmith But nothing disturted Palmer on the night, and nothing took away from his really fine performance. A list of songs would take up the rest of the review — suffice to say most of "Double Fun" was included, and selected highlights from earlier albums.

"Every Kinda People"— with the kind of lyric and steel guitar break that echoes in the mind all the next mortaing—was the first off "Double Fun" following "Soul Fever". Kenny Muzor showed his versatility on "Love Can Run Faster" with staccato guitar

RHESUS VERY NEGATIVE

Rhesus Negative/Emergency

HARP BAR, BELFAST

MARP BAR, BELFAST

SINCE ITS inception some months ago as the only birthplace in town for local groups to play. Rhesus, Negative have virtually been the Harp Bar's house-band. Their consistent gigging leaves me completely bemused since they play what is to these ears very unattractive and very block mode.

Emergency are a new hand playing their debut gig. The group comprises half of Victin Oxho were responsible for the snappy and effect sector. Strange Thing By Night' 45) and batfor the Amdroids who were the chief purveyors of a hard core heavy metall name, retardation.

Rhesus Negative come over with some semblance of power and depth in their songs torighte in place of the public, almost embarras, ings shullow ness of previous outlegs.

But the songs still sound depressing and barely listenable. They perform see rold rock music about as enticing as Van Der Girnaf and often redolent of Adom's Ants. Their only enjoyable number remains "My Barby Left Ste", a successful merging of their galatic stylisms with a bit of humour and a smattering of commercialism.

But elewhere its redour with the simplistic rift of "Contact

commercialism.

But elewhere its tedium with the simplistic riff of "Contact Radiation", the inksome "Rhesus Bables", or an onstage finade against the music press.

Like so many bands who are trying to do something different they've become another gaggle of essentially buring noise merchants.

They close with a sersion of "Satisfaction" that would make your Granny cry. But by that time the place is nearly empty.

SIOUXSIE & **BANSHEES** TRIUMPH OVER **GREMLINS**

Siouxsie And The Banshees

AYLESBURY SOMEWHERE IN the South of England, a one-off from current top-popsters Siouxsie and The Banshees, tour and debut

Banshees, tour and debut alburn up and coming.

A generous capacity crowd. Even The Human League go down like Status Quo. Very interesting. With no drummer but lots of electronic thingies they look awfully clever and we nearly all think they're wonderful.

And Spizz Oil, Into the North Sea and Petrol, this beavy metal duo (a literal garage-band). Many find them fun but when they encore with

fun but when they enoure with "I've Been Switched Off" my response is "that makes three

of us."

But we all like Siouasie and
The Banshees, don't we. From
the definitive no-chord-wonder
hand of 100 Club days has
emerged the New Wave group
Most Likely To. In fact they
already have — to judge by
this reception, anyhow. From
the gallery the crowd's
a cram-packed mini-Kop of
bopping bods and bouncing
bouces.

Consequently, if this

Consequently, if this evening was not the total triumph it might have been then it's to the group themselves that we must look Stoussie, to be sure, is on the finest form. Skipping serows the stage she's as attractive a feeal point as any outfut could want and, on "Nicotine" and "Switch" her vocal performance displays increasing assurance.

And Kenny Morris is easily the most compelling drummer I've noticed in many a york. Like all the best he's

Like all the best he's unconcerned with the ripperies which define proficiency, keeps to a determined, basic sound. This insistent, deep and beaty reliance on the tom-tom conspires with Siouxsie's singing (slow, throaty incantations then sudden

meantants in secret season whiplash yelps) In create and errie tribalistic sound. Guitacist John McK ay and bass-player Steven Severin are careful and studious, crafting ingenious runs around essentially straight-forward sones. Stranger to say they're estentially straight-forward songs. Strange to say they're plagued by tuning peoblems throughout the set. Banal as it seems, what should have been the high-spot. "Hong Kong Garen" is spoiled by the glaring divergence of instruments from voice and from each other.

instruments from voice and from each other.

"Jigsaw Peching" is suitably disjointed and "Suburban Relapse" impressively culd and monstrous. Another re-tuning full before.

"Overground" and, while the hall remains vociferously loyal, there's no mistaking the frustration in Severin's tone:

"We know it's a good song but you don't have to clap when it's so out of func."

All the same the encores work out fine. T. Rex's "20th Century Boy" (tonight's the anniversary of Bolan's reagic crash) generates, a warmth that's exuelly blasted away by the molevolence of "Helter Skelter" — hard to detect the McCartney touch in so nasty a business asThis.

Alas' no more as Kenny's hand is honourably knieked and is honourably knieked and bandaged and it wants to go home.

Siouxsie and The Banshees.

Sioussie and The Banshees regard their music as a serious thing. Self-absorbed, with scan regard for audience joility-levels, they're the antithess of yet average good-time' boogie metchants. Otherwise, they aren't as starkly, uncomfortably modern' as some reports suggest, merely and mercifally free of 90 per cent of all rock in roll cliches.

Of Frankie leanin' back t' gob on the audience . MATTHEW TAYLOR

Frank Sinatra ROYAL FESTIVAL HALL

UNLAKELY, I suppose, to prevail upon the readership to exchange the Lewis Leathers for a tarred fedora with a polks dot hatband, sharp-shouldered mohair and half-mast tie-knot, and accompany me in the spirit of pligriumge to Francis Albert Sinatra of Hoboken and Hollywood.

Hollywood.

There's a generation gap here like an elephant's chuff-box, so that anyone who teethed on the mellifluous brintippers is as unlikely to find much of stussical merit in today's rockets are to find relevance in yesteryear's seamed songsters. Pity.

Less mannered than Blag, less limber than Torme, more upright than Martin, more multi-dimensional than Bennett, Como. Haymes, Echatine and Greco, Simitm is the greatest singer of the best popular songs of our century, not an accolade you get free with Wheaties. You can dislike the image, the ambiance and the genre, but if you can't clock the artistry you are Mart & Jeff.

rate as veri.

Sharin came up through the big bands of the early '48s, studied at the smoothly soulful trombone of Toumy Derrey, "The entimental Gentleman", and developed his craft back when craft

Sentimental retained was also before the pleading lightness in his voice has flattened, and the medium register trombone tonality has taken over the centre, a nice-and-easy-does-it related maleness that has deladed generations of hashroom imitators.

Bothwoom limitator: "Like to do a li'l number's bin good to us over the years."

Buthroom Imitator: "Like to do a li'l member's bin good to us over the years."

Steradent: "Oh shire."

So how's he doing at 637 Judging by the opening night of a week of concerts at the Royal Ferrival Hall, he's hitting more than be missee. He might phrase like a horn, but the human voice is periahable where bram ablekes, and is some areas it will no longer do the master's bidding. He can swoop down the register, but up shows the feedons of strain and Sinatra was never about that. Here and there, be had to havi off to shout a note. Those familiarities of diction — the thudding d's, the abrupt snapping a's—are now occasionally course and harrh and unsertiling to the ballad, and emphasize the impression of a tightening of mustles that once were little.

Age also has its compensations. Sinatra may not still be the sansy wise-sun kid of yore, but he can afford to treat his familiar numbers to elisious and syncopatious that add up to a pretty hip stage personality.

All Lida & Theory "Ad Dot May. "The Lady is A Tramp" sped by

men movre, comman extremportations — "get a piece", "Lindy is a change"— and niry hand gestures staking his claim to freehold pomension.

"Didn't We", by contrast, was initiately moving. Accompanied only by the string section, Sinatru inhabited the words so that the the phrase "this time we almost made that long hard climb's stretched aft the way from his own range recession to the snore naiversal entrophy of age. George Harrison's "Something" was, at best, a parody, Ferpoten these and a grating bump to grind routine, topped off with innerts like "stick around, Jack", showed The Man at his innensitive worst.

Where he really came into his own was in the confessional. "The Girl Who Got Away", "In Never Entered My Midd" and "Angel Eyes" were spellishaling performances, heartool, cigarette smolle, the pipes gravid with poin.
"Everyday stories", he explained, "of the average hono sapien whose chick has upil."
"Lonely Town" from the trie of movie memories was outstanding, its opening line, "New York, New York" rining like a forlorn tugbout stren; only Torne can cap that version. The three new numbers were variable. Ellou John's "Remember" was a sleeper that failed to respond to treatment, and "What Does God Look Like?" mainly memorable for the noneast when Sinstra, listing The Almighty's Artibutes, suddenly dried and barked at his prompter — "His WHA AAT?"

The last one, "You And Me" was a masterpiece: "we wanted it all, passion without poin."

An all bow-the andfence would not let him go without "My Way", a cheapit emotional killer-diller best left to the French, but that was the only concenion to the open-throttle giottal. He doesn't need it. If reck stars are to solve the public ageing process by means other than overdose and retirement, they could well study on Sinstra.

Soft Boys LONDON NASHVILLE

ANOTHER NEXT year's thing . . . And now 1979 looms. Signed to Radar with an LP imminent, The Soft Boys are somewhere between wishing they were babies and wishing they were dead. They are ashamed of their minds!

They performed "Cold Turkey" with much composed rage and no passion, which significantly planted them firmly in the middle of 1969 in more ways than one.

more ways than one. They are in the process of regression, an unusual form of adventure. Once discreetly challenging and eccentricit, they now smother the challenge, emphasise the eccentricity and in moving backwards, move towards an audience. Not only a next user's thine but

towards arrandement. For only a next year's thing but potential biggies. The ambiguity and indeterminacy of their early days has fallen away. Someone murmured perhaps they've begun to take the mselves seriously. Someone etse. organ to take themselves seriously. Someone else complained they weren't food enough. But their set was strong and direct, their songs brief and active. Their music is a very forceful blanket sound: raging dual

electric guitars, inscrutable pumping bass, stoic drumming with occasional strange, spirited harmonica. It skims along with definium and swagger, counterbalanced with the awkward whinnsy of the lyrics. The vocal delivery and mannerisms are of an Ayers-Barrett wide-eyed singing-in-the-bath dead pan. The touchy rhythmic twists and stonlasting changes in direction and level complete the compelling, insistent sound that's within the context of a flat psychedelia. It's layered and intricate, but simple sounding. Odd and

It's Jayered and intricate, but simple sounding. Odd and highly strung, and very approachable. Would you believe Lothar and The Hand People, The Byrds, The Monkess and nowadays more Canned Heat than Captain Beefheart.

The carefully warped imagination and teasing vigour of The Soft Boys will see them hip and popular. The funny thing is, they're now a straight revivalist group. Everything about them, the overall sound, the tinges of madness, the introductory Cage-ish tape collage, the poker-face nomense, is of a time long gone.

ones.

I left early, because such heavy frivolity is best in small doses and my mind was numb.

NOT EVEN their most dedicated devotees (yes, there are some) could claim that The Straits have anything more Straits have anything more than rudimentary competence. Lacking as much in virtuosity as they do in balls, they have a long, long way to go. But judging by the receptions they are beginning to get on the Yorkshire pub and chub circuit, the fair-gender band from Leeds, York and Frome (and a whole lot of other places too, though one Strait categorically denies having passed her audition at the L.S.E.) have at least reached the stature that deems them "reviewable". The Barge of a Saturday night probably isn't the best yenue to play or to view. Ity

in the Barge of a Saturday might probably isn't the best venue to play or to view: try imagining a place where it's always safe and warm, and you're getting green. The boat rocks, all right, but that's got more to do with the Ouse than the music. Apart from that, there are plenty who really do show just for the grog, mush. But The Straits set everything off just-fine. The cramped soaphox estrade was right for their act, lacking all-round set-assurance, each girl could take refuge in the collective pool of furtive nods and winks. As soon as the applause started coming, the concurrent relaxation induced the smiles, the confidence, and utimately, playing of a less amateur, more controlled amateur, more controlled

to her rescue with some deft footwork.

The songs are poprock, conceived and written better than they are played.

"Refease" and "You Belong To Me", both down (impressively) on demo, are the best of the bunch, while "Sacha Shoes", "Natty" and a near-perfect, Anglification of "Funtime" are significant testimony to the girk' ingenuity. And these are just the first pangs: the Straits only have around 10 numbers and they just have to play 'em again man, whenever they' required — as they were here—to do two sets.

The Straits do tend to lack the stardust stance: were they to move it around and shake some action, much of the duff instrumentation and wary yocals would be overlookable.

some action, much of the dull instrumentation and wary vocals would be overlookable. But they can work on that. What impresses must about The Straits is that while they have countless shortcomings, they exude the impression that no problem is insuperable. I don't share that confidence all cont is starte that confidence at the way, and if they do create a splish, it could well be because their zer, gives them a head's start in the gimmick stakes. But I hope they get all the chances they need, and the best PA in the world.

Like someone conveniently said, "nothing is got without pain but dirt and long nails".

ON OCCASION of late, it's seemed to this critic that much of the verve and militancy displayed by the Punk movement has either fossilised in '76 or transmuted - via pop shallowness, heavy metal fatigue and technical aloofness — into the same old commercial docility of the old

The Members are a very notable exception. After a year's existence they've year's existence they've evolved into an extremely tough, punchy stage band with a style and wholly original fusion of influences that owes little to anyone and places them firmly in the very top echelon of unsigned bands.

LIKE a lot of established black vocal groups. The Temptations have been through a lot of changes. The current line-up is at least the sixth in the group's 18-year career, and they're in the most distressing position of any of the different teams who have traded under the famous banner

The aforementioned threesome, (Mike Jelly, Bill Clift and Dave Head), with the solld support of Tim Joyce (bass) and Tony dewon on drums are responsible for this musical extravaganta which goes by the name of The Late Show.

It was once tempting to classify this band as 'early 60s revival' on account of the predominance of 'dno-wop' in their repertoire, and judging by the Stones, Bentles and Holkies

covers that are still at large they've got no intention of straying very far from these roots. But by adammently refusing to play safe, and meretly wallow exclusively in nostalgia, (as Whirtwind are currently doing with the whole Presley era), they're forging absend as an extremely entertaining and imaginative band. Keeping mostly to an early R&Brock'n'roll loranat, they make maximum use of their fruir excellent barranny vocalists, and Jelly's ability to double on fiddle and lead guilar. Prominent rockers include a couple of (fronte) sugges of moral dilemma. "Midnight Rendervous" and "Wished I'd Stayed Home And Watched My EV", and the "uptempo country reggae" EV", and the "uptempo country reggae number "Cruel To Me".

Band's of The Late Show's versatility and class are mighty scarce, especially on the pub-circult. See them now, in case the imminent pressures of stardom and tax evasion force them all to expatriate.

It was one of those outstanding performances that made me wish I'd smuggled a tape recorder into the house.

Throughout the entire show founder-Temp Oits Witliams did a masterly job of not only singing his own part but covering for his long-time partner, bastman Melvin Franklin (who's recuperating from the recent shooting incident), and the quartet displayed many of the finest

aspects of black vocal group tradition, both in harmony and in chop. In change rallies of their contrasting voices. In fact if they'd only drop the medley and a couple of the less interesting uptempo numbers in favour of a full exploration of their combined vocal talent. This latest set of Temptations could quite easily vocat faicht, ints latest set of Temptations could quite casily blow most similar groups clean off stage.

Think about it fellas. Don't follow leaders: use what you got to satisfy.

ORE BY instinct than any real and deep concern I bring up politics. A bit of bands, after all, made good mileage out of creating for themselves the image of concerned young revolutionaries. Tower block existence. Spray paint prophets sumbling through decay. Christmas cracker stogeneering. Okay fellers take decay. Christmas cracker stoganeering. Okay fellers take five, bring on the social conscience machine. Hell, some of it seemed fairly convincing. Didn't it? "Poblics? We're not a political band. We don't present anything the like wa've.

political band. We don't preach anything. It's like we've got to think carefully about what we do. For instance, we're not prepared to play Rock Against Racism gigs, because they're just being turned into propaganda events for the Socialist Workers' Party. Which is not to say we have anything against the SWP—we just don't want to be manipulated like that. "We're perfectly willing to play direct benefit gigs. We want to do that. We've just played three straight mights at

The hell with new wave politics: the conversations I've had with the participants have convinced me that most are too dumb to comprehend even the cardinal principles of the persuasions they claim to uphold. Either that or they're unbelievably naive.

uproute, entire that or they re unbelievably naive. Prudence and shrewd foresight on the part of the band, aided no doubt by the oppressive lust of the press to bleat out the brittle sensationalisms of the kinderearner addicals, made sensationalisms of the kindergarier radicals, made certain that 999 didn't find themselves beached when the righteous—inevitable—hammer came down. After all, 999 aren't the best band in the world, and there isn't much world, and there isn't much chance of them becoming next chance of them becoming next year's thing — not until next year anyway — but they are survivors. And they survive for all the right reasons. Primarily because they don't forsake all in an attempt to appear praeter-modern. What's inside comes to the surface through natural process.

JUST WHAT the hell is going on? I seem to be the odd one out here. Evey week I buy the three main music papers and in two of them — no names, but it's you I'm moaning to - I get the pointless and mindless meanderings of the likes of Jimmy Pursey and my God 1

Jimmy Pursey and my God 1 could puke.

United? The likes of Pursey and his new wave cronies? Not likely. And if it isn't them it's some foot like Tom Robinson defying the evidence in front of his eyes by telling me the Stones are has-beens, while inventing evidence of his own that we're in the midst of a Nazi take-over—and if it isn't that, it's some reggae jerk pusturing on his spotty behind about what Nirvana Jah will be and how poxy it is to be black and British—and the white people who are vogue enough to be anti-racism turn up at rallies and hear shit out of each other, and then moan about the pigs who and then mean about the pigs who they also beat up while they try and stop them from murdering each other.

And fuel is added by the likes of you who don't reflect the trends of youth — you create them. The upsurge of RAR, and it's all a bloody great

game. We all protend that we're so full of street credibility that it hurts, and we all droot over what hums like Steve Jones and Sid Victous are doing, and how vogue it is to cause a public

disturbance. Nobody fills their veins with shit, Nobody falls their veins with shir, they have 'a smack hibit', and you don't blether on and on about persecution that if we're honest none of us really experience—instead you have 'sincerity' and 'credibility'. And white we all disappear up our street level arses, good rock music's going down the drain and no bugger

I buy papers to read about hands and music — not possible with New Wave because if you listen to old-fashioned ideas like production, lyrics, barmoon and lyrics, harmony and sincerity, you won't find it in shit like "White Riot"

lyrics, hatmony and sincerity, you son't find it in shit like "White Riot". Riot? I'll give you a root, mate - it's my carction to every fart and sneeze by New Wave idols being chrimteled, and the necational mention of how they are hving it up in America, off the proceeds of the poor apped-off punks.

And then, in the midst of this vile mess of empty words and vacuous music, I turn to NME and find that the only true underground mosk left gets an airing. It's been quietly getting on with giving pleasure to millions of people, with no pretence to be anything but what it is 'It's called soul music, and these days it's what I'll get off on until trock comes to its enses. ME AND my mates left Worksop to travel the 40 or so miles to Hoddersfield with the hope of obtaining a ticket for the Sex Pistols gg that inglit (December 25 1977). We didn't have much hope though, and this was our fourth attempt at seeing the hand.

We drove round the town a few times and found this place called Ivanhoe's, where the Pistols were supposed to be gigging that night. The doors were open and there was this familiar sound coming through them. On hearing it, my body started spontaneously twitching and jerking. I found myself running down this corridor as the sound got louder and louder.

OWER IN THE Park judging from the meagre attendance, last Saturday's Stranglers beand at Battersea was more like the proverbial Roman Candle in a snow storm, Even the kind of weather that keeps Ambre Solaire in business, not to mention vigorous advertising on Capital Radio, couldn't beef up the crowd to more than at most — five and a half thousand.
